KEY WORDS: Dolichopodidae, Russia, Yakutia, checklist, new records.

КЛЮЧЕВЫЕ СЛОВА: Dolichopodidae, Россия, Якутия, список видов, новые указания.

ABSTRACT. A new material of Dolichopodidae was recently collected and/or identified, and a revised check-list of Yakutian species was compiled. The present research gives new records, including 28 species found for the first time in Yakutia, 31 species recorded from new natural zones and four probably undescribed species. In total, 20 genera and 150 (including four unnamed) species are listed that apparently makes up 60–70% of actual Dolichopodidae fauna in Yakutia. This paper provides also distribution pattern for each species and characteristics of Yakutian habitats for 54 species.

РЕЗЮМЕ. Новый материал по семейству Dolichopodidae Якутии собран и/или определен; составлен новый список видов Республики. Новые указания включают 28 видов, найденных впервые в Якутии, 31 вид, обнаруженный в новых природных зонах, и четыре, скорее всего, неописанных вида. Всего в Республике отмечено 20 родов и 150 видов, что, по-видимому, составляет 60–70% якутской фауны Dolichopodidae. В статье приведены также общее распространение для каждого вида и краткие характеристики мест обитания для 54 видов, отловленных в Якутии.

Introduction

Yakutia (presently, the official name of this land is “Sakha (Yakutia) Republic”) is a vast (more than 3000000 km²) and scarcely populated (about 1 million) region situated in NE Asia and characterized by a severe

continental climate with the absolute annual amplitude of temperature reaching 101.8°C at Verkhoyansk [Suslov, 1999]. Most of its territory, except for high mountains of its NE part, is covered by open taiga of low-growing larch (*Larix spp.*) with admixture of pine (*Pinus sylvestris*) and birch (*Betula pendula* s. l.). The forests exist there in spite of extremely low precipitation (mostly in late summer, annual precipitation ranging from 90 to 300 mm), which is compensated by a low evaporation. The summer is quite short (80–110 days without frost) but sunny and hot (at Yakutsk, the average temperature of July is 19°C, the maximum temperature registered is 38°C); so, many animal species extend more northerly in Yakutia than in West Siberia [Suslov, 1999]. Rather high latitude provides a very long daytime in June and July and hence a rapid passing of all phenological phases in the beginning of the summer; the best time to collect almost all insects there is June [see Suslov, 1999 and Kuznetsova, 2005 for further reading].

The earliest collection of Yakutian Dolichopodidae was made by the Russian researcher of Siberia Aleksander Czekanowski in 1874–1875 in the Far North of Yakutia during his expeditions along the Olenyok River mainly. The material was treated in 20th century, being still kept in the Zoological institute (ZIN) of the Russian Academy of Sciences (St.-Petersburg).

The first information about Yakutian long-legged flies was published by the Finnish researcher R. Frey [Frey, 1915] who treated Diptera material collected during the 1900–1902 Russian polar expedition and found *Hydromorus alpinus* Wahlberg, 1844. The results of treatment of rich dolichopodid materials collected by the Yakutian expedition of the Academy of Sciences of the USSR (1925–1927) were published in a series of works of the famous Soviet dipterologist

A.A. Stackelberg [1928, 1929, 1930a, b, 1933, 1951]. Since 1950s, the ZIN dolichopodid collection replenished by various expeditions to Yakutia. The very interesting findings were made by well known dipterists K.B. Gorodkov and V.G. Kovalyov in the northern, northeastern and central parts of the Republic, by V.V. Zlobin in the Center, West and Southwest. These materials were used in a number of taxonomical revisions and faunistic reviews of dolichopodid fauna of the USSR and Russia published by O.P. Negrobov and his disciples since 1971 (see References). The *Catalogue for the family Dolichopodidae (Diptera) in the USSR* that presented an annotated list of species with region by region records contained 45 species known for Yakutia [Grichanov, Negrobov, 1979]. Later, several more species records were published in taxonomical and faunistic works based mainly on ZIN collections [Negrobov, 1986a, b, 2000; Negrobov, Tsurikov, 1986; Negrobov, Chalaya, 1991; Negrobov, Maslova, 1995; etc.].

Recently, rich Diptera material was accumulated at the Institute of Biological Problems of the Cryolythozone of the Siberian Branch of the Russian Academy of Sciences, Yakutsk (IBPC). The flies collected before 2002 were studied by I.Ya. Grichanov, who found 11 species new for the fauna of Yakutia and compiled a check-list for the Republic for the first time, including 76 species [Grichanov, 2002]. New data on the distribution of 51 species of Yakutian Dolichopodidae including 17 species new for the Republic were published in 2006 [Grichanov, Bagachanova, 2006]. Last years, Grichanov, Volkov [2009]; Maslova et al. [2011]; Negrobov, Grichanov [2013], Grichanov, Negrobov [2014]; Negrobov et al. [2017] have described several new for science species from that territory. At the same time, A.K. Bagachanova and her collaborators (IBPC) have collected a lot of new material from various parts of Yakutia, and I.Ya. Grichanov has identified recently sorted flies from the old ZIN and IBPC collections.

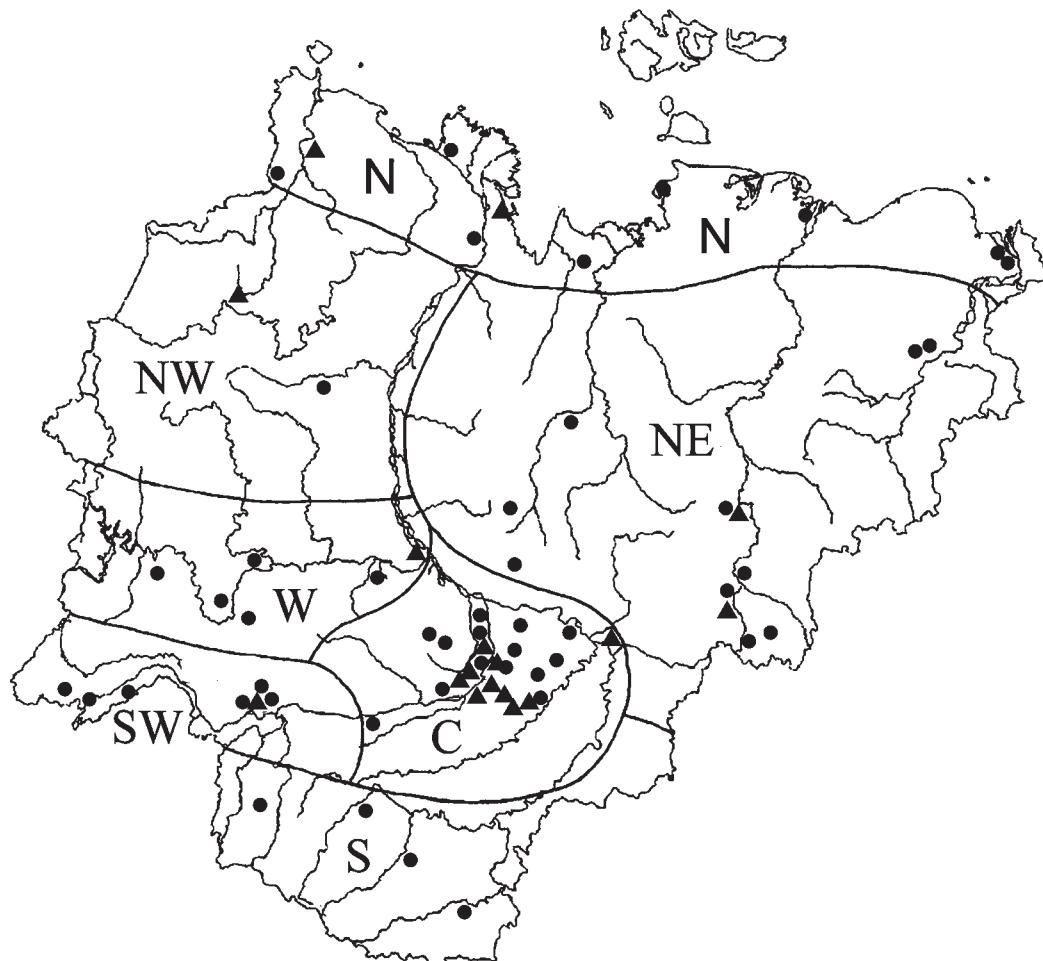

Fig. 1. Points of collecting dolichopodids in Yakutia: ● — listed by authors [Grichanov, Bagachanova, 2006, and this paper]; ▲ — according with other references. The following designations were adopted in the text and Figure 1: N — North Yakutia; NW — North-West Yakutia; NE — North-East Yakutia; W — West Yakutia; C — Central Yakutia; SW — South-West Yakutia; S — South Yakutia [after Vinokurov et al., 2010].

Рис. 1. Места находок видов Dolichopodidae в Якутии: ● — указанные авторами [Grichanov, Bagachanova, 2006, и настоящая статья]; ▲ — приведённые по другим источникам. Обозначения, использованные на рис. 1 и в тексте: N — Северная Якутия; NW — Северо-западная Якутия; NE — Северо-восточная Якутия; W — Западная Якутия; C — Центральная Якутия; SW — Юго-западная Якутия; S — Южная Якутия [по Винокурову и др., 2010].

It is worth noting that the papers based on old collections contained a lot of missing data, inaccuracies and wrong spacing of collection points. Distribution of species was sometimes provided in general, e.g. "Yakutia", "Indigirka". In some cases, localities were erroneously associated with the recognized natural regions of the Republic, e.g. with the East Yakutia instead of the Central Yakutia. For this paper, the authors have checked original (label) localities, if they were referenced, and established the exact locations of collection points according with primary sources (Fig. 1). Such work is necessary for bonding a fly distribution with the landscape and vegetation zones of Yakutia [after Vinokurov et al., 2010]. In future, it will allow characterizing dolichopodid fly species by area types [Gorodkov, 1984].

Annotated List of Species

For each species we provide references (if available), with natural zones of Yakutia (Fig. 1) for the published material and with the names of taxa used by the respective authors if they differ from those used by us; unpublished material studied; short characteristics of species habitats (if available); general distribution of species [after Grichanov, 2017] and preliminary characteristics of a species area type [after Gorodkov, 1984]. An asterisk (*) indicates new species for the Republic. Remarks are provided where deemed necessary.

1. *Argyra magnicornis* (Zetterstedt, 1838)*

MATERIAL EXAMINED. **C Yakutia:** 1♂, Amginsky District, Mikhailovka, 25.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: Norway: "Nordlandiae, Tromsoe, Lappo, Norveg." Palaearctic: Austria, Denmark, Finland, France, Germany, Norway, Russia (Arkhangelsk, Leningrad, Voronezh, Yakutia), Sweden. Euro-Siberian temperate. New for Yakutia and eastern Palaearctic.

2. *Campsicnemus armatus* (Zetterstedt, 1849)

REFERENCES. Negrobov, Zlobin, 1978: 51 (**C Yakutia:** Lena River valley), Negrobov, Chalaya, 1991: 65 (**C Yakutia:** Lena River valley, Amga River valley, Lena-Amga interfluve); Grichanov, Bagachanova, 2006: 128 (**C Yakutia:** Amga River valley).

MATERIAL EXAMINED. **NE Yakutia:** 1♂, Env. vil. Tomtor, Oymyakonsky District, N 63°15'41", E 143°10'40", 18.07.2011, Bagachanova (IBPC); 5♂, Cherskii, 18.08.1971, Gorodkov (ZIN). **C Yakutia:** 5♂♀, Yakutsk, 10.08.1987, Zlobin (ZIN); 2♂, Amginsky District, Mikhailovka, 5.08.1987, Zlobin (ZIN). **W Yakutia:** 2♂, Leninsky [=Nyurbinsky] District, Nyurba, 28.06.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: Denmark: Rosenthal, Gryphium. Palaearctic: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Iceland, Iran, Ireland, Italy, Mongolia, Netherlands, Norway, Poland, Russia (Arkhangelsk, Kamchatka, Karelia, Krasnoyarsk, Murmansk, Nenetsia, Tatarstan, Yakutia, Yamal, Yekaterinburg), Slovakia, Sweden, Turkey (Kars), UK, North Africa; Tropical Africa. Multiregional polyzonal. New for NE and W Yakutia.

HABITATS. Banks of rivers and rivulets, swamp meadow, willow bed, *Alopecurus* at slopes.

3. *Campsicnemus articulatellus* (Zetterstedt, 1843)*

MATERIAL EXAMINED. **C Yakutia:** Lena-Vilyui interfluve: 1♂, Ulakan Chabydai Lake, 30 km N vil. Magarassy, 4.09.2012, A. Popov (IBPC).

DISTRIBUTION. Type locality: Sweden: Gottlandia; Oja. Palaearctic: Denmark, Estonia, Finland, France, Germany, Ireland, N Kazakhstan, Latvia, Poland, Russia (Karelia, Leningrad, Pskov, Ryazan, Yakutia); Sweden. Euro-Siberian temperate. New for Yakutia; easternmost distribution.

HABITATS. Cereal grasses at lake.

4. *Campsicnemus bagachanovaae* Grichanov et Volfov, 2009

REFERENCES. Grichanov, Volfov, 2009: 964 (**C Yakutia:** Lena-Amga interfluve).

DISTRIBUTION. Type locality: Central Yakutia, Lena-Amga interfluve, Tyungulyu vil., 50 km ENE Yakutsk. Conditional endemic of boreal Yakutia.

HABITATS. Hygrophyte communities.

5. *Campsicnemus compeditus* Loew, 1857

REFERENCES. Negrobov, Zlobin, 1978: 52 (**C Yakutia:** Amga River valley); Negrobov, Chalaya, 1991: 65 (**C Yakutia:** Lena-Amga interfluvies).

DISTRIBUTION. Type locality: Poland: "aus hiesiger Gegend" [=Mesaritz]. Palaearctic: Austria, Belgium, Czech, Finland, France, Germany, Ireland, Japan, Kyrgyzstan, Latvia, Netherlands, Norway, Poland, Russia (Karelia, Leningrad, Murmansk, Buryatia, S Kamchatka, Yakutia), Sweden, UK, Switzerland. Trans-Eurasian temperate.

6. *Campsicnemus magius* (Loew, 1845)

REFERENCES. Negrobov, Chalaya, 1991: 65 (**C Yakutia:** Lena-Amga interfluve).

DISTRIBUTION. Type locality: Italy: Sicily. Palaearctic: Algeria, Austria, Azerbaijan, Belgium, Bosnia and Herzegovina, Bulgaria, Czech, France, Germany, Hungary, Iran, Israel, Italy, Netherlands, Spain, Romania, Russia (Astrakhan, Ekaterinburg, Kabardino-Balkaria, Krasnodar, Rostov, Yakutia), Tajikistan, Turkey (Korucuk), Turkmenistan, UK, Ukraine (Odessa), Uzbekistan. Euro-Siberian-Central-Asian, polyzonal.

7. *Campsicnemus paradoxus* (Wahlberg, 1844)

REFERENCES. Negrobov, Zlobin, 1978: 52 (**C Yakutia:** Aldan River basin).

DISTRIBUTION. Type locality: Sweden: Quickjock. Palaearctic: Finland, Mongolia, Norway, Russia (Murmansk, Yakutia), Sweden. Euro-Siberian, boreal.

8. *Campsicnemus picticornis* (Zetterstedt, 1843)

REFERENCES. Negrobov, Zlobin, 1978: 53 (**C Yakutia:** Lena River valley); Negrobov, Chalaya, 1991: 66 (**C Yakutia:** Lena-Amga interfluve, Lena River valley); Grichanov, Bagachanova, 2006: 129 (**C Yakutia:** Lena-Amga interfluve).

MATERIAL EXAMINED. **NE Yakutia:** 5♂♀, Cherskii, 18.08.1971, Gorodkov (ZIN). **W Yakutia:** 3♂♀, Leninsky [=Nyurbinsky] District, Nyurba, 23.06, 30.06.1987, Zlobin (ZIN). **C Yakutia:** Lena River valley, 6♂♀, Yakutsk, 10.08.1987, Zlobin (ZIN); 1♂, 7 km SW Yakutsk, Plemkhoz, 14.06.2007, Bagachanova (IBPC); 1♂, Pokrovskii road, 39 km SW Yakutsk, 23.08.2007, Ermakova (IBPC); 1♂, 55 km SW Yakutsk, 23.08.2007, Bagachanova (IBPC); 1♂, Botanical Garden, 10.08.2005, Evdokarova (IBPC); 1♂, 25 km N Yakutsk, vil. Kildyamtsy, 4.07.2007, Bagachanova (IBPC); Amga River valley, 1♂, Amginsky District, Mikhailovka, 5.08.1987, Zlobin (ZIN); **SW Yakutia:** 1♂, Kyatchi, 21 km W Olekmansk, 21.07.2008, Bagachanova (IBPC).

DISTRIBUTION. Type locality: Sweden: "Suecia meridionali et media, in Scania ad Raften; Ostrogothia ad Larke-torp; Haradshammar; Holmiam". Palaearctic: Asia (Israel, Kazakhstan, Kyrgyzstan, Turkey, Uzbekistan, Russia: Birobidzhan, Blagoveshchensk, Buryatia, Kamchatka,

Khabarovsk, Krasnoyarsk, Novosibirsk, Sayan Mts., Yakutia, Vladivostok), Europe (Austria, Belgium, Czech Republic, Denmark, Estonia, Finland, France, Germany, Hungary, Italy, Latvia, Netherlands, Poland, Russia (Kalininograd, Karelia, Leningrad), Slovakia, Sweden, Turkey (Hakkari), UK, Ukraine, Uzbekistan). Trans-Palaearctic temperate. New for NE, W and SW Yakutia.

HABITATS. *Artemisia*, *Stipa*, *Agropyron* and *Artemisia*-cereal communities on steppe slopes; *Carex* hygrophyte community; shrunken swamp on steppe slope; bank of swampy lake; *Carex* swamp at rivulet bank; swamp meadow, willow bed.

9. *Campsicnemus pumilio* (Zetterstedt, 1843)

Campsicnemus pectinulatus Loew, 1864.

REFERENCES. Negrobov, Zlobin, 1978: 52 (as *Campsicnemus pectinulatus* Loew, 1864; C Yakutia: Amga River valley). Negrobov, Chalaya, 1991: 65 (as *Campsicnemus pectinulatus* Loew, 1864; C Yakutia: Lena River valley).

DISTRIBUTION. Type locality: Sweden: "Sueciam in Scania ad Scandhammar et Silfakra". Palaearctic: Austria, Belgium, Czech, Denmark, Estonia, Finland, France, Germany, N Kazakhstan, Kyrgyzstan, Netherlands, Poland, Romania, Russia (Karelia, Krasnodar, Krasnoyarsk, Leningrad, Moscow, Novgorod, Ryazan, Ulyanovsk, Yakutia, Kamchatka), Sweden, UK. Trans-Eurasian temperate.

10. *Chrysotus andrei* Negrobov, 1986a

REFERENCES. Negrobov, 1986a: 36; Negrobov, 1986b: 11 (as *Chrysotus andreji*) (C Yakutia: Lena-Amga interfluvie).

MATERIAL EXAMINED. C Yakutia: 1♂, Amginsky District, Mikhailovka, 25.07.1987, Zlobin (ZIN); W Yakutia: 1♂, vil. Aryakh SE Mirnyi, 8.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: Amur Region, Zeya. Palaearctic: Russia (Blagoveschensk, Krasnoyarsk, Yakutia), Mongolia. East-Siberian, boreal. New for W Yakutia.

11. *Chrysotus cilipes* Meigen, 1824

REFERENCES. Maslova et al., 2011: 465 (C Yakutia: Amga River valley).

DISTRIBUTION. Type locality: Germany: Hamburg. Palaearctic: Abkhazia, Armenia, Austria, Azerbaijan, Belgium, Bosnia and Herzegovina, Bulgaria, China, Czech Republic, Estonia, Denmark, Finland, France, Germany, Hungary, Ireland, Italy, Japan, Kazakhstan, Korea, Latvia, Lithuania, Luxembourg, Mongolia, Netherlands, Norway, Poland, Portugal (Madeira), Romania, Russia (Adygea, Altai Rep., Altai Terr., Baikal, Blagoveschensk, Buryatia, Chita, Irkutsk, Kabardino-Balkaria, Karachai-Cherkessia, Karelia, Khabarovsk, Krasnodar, Krasnoyarsk, Moscow, Leningrad, Novgorod, Novosibirsk, Pskov, Rostov, Sakhalin, Tomsk, Vladivostok, Voronezh, Yakutia), Slovakia, Spain, Sweden, Switzerland, Turkey, UK, Ukraine. Trans-Palaearctic, polyzonal.

12. *Chrysotus degener* Frey, 1917

REFERENCES. Maslova, 2006: 106 (C Yakutia: Lena River valley; unpubl.); Grichanov, 2017: 131.

DISTRIBUTION. Type locality: Sri Lanka: Anuradhapura. Palaearctic: Russia (Blagoveschensk, Vladivostok, Yakutia); Oriental: China (Taiwan), India, Myanmar, Sri Lanka, Pakistan. Multiregional polyzonal.

13. *Chrysotus femoratus* Zetterstedt, 1843

REFERENCES. Negrobov, Chalaya, 1991: 66 (C Yakutia: Lena River valley, Lena-Amga interfluvie; Lena-Vilyui interfluvie).

DISTRIBUTION. Type locality: Denmark: Amager. Palaearctic: Austria, Belgium, China, Czech Republic, Denmark, Estonia, Finland, France, Georgia, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Moldova, Mongo-

lia, Netherlands, Norway, Poland, Portugal (Madeira), Romania, Russia (Adygea, Altai, Arkhangelsk, Blagoveschensk, Irkutsk, Kamchatka, Karelia, Karachai-Cherkessia, Khabarovsk, Krasnodar, Leningrad, Murmansk, Novgorod, Pskov, Ryazan, Sakhalin, Tatarstan, Vladivostok, Voronezh, Yakutia), Slovakia, Sweden, Switzerland, Turkey (Erzurum, Hakkari), UK, Ukraine. Trans-Palaearctic, polyzonal.

14. *Chrysotus fuscoluteus* Negrobov et Zurikov, 1986

REFERENCES. Negrobov, Tsukrikov, 1986: 632 (N Yakutia and NW Yakutia).

DISTRIBUTION. Type locality: Russia: Yakutia, lower Lena River, Ayikit. Palaearctic: Russia (Yakutia). Conditional endemic, Arctic-boreal.

15. *Chrysotus glebi* Negrobov et Maslova, 1995

REFERENCES. Maslova, 2006: 109 (C Yakutia: Lena-Amga interfluvie; unpubl.); Grichanov, 2017: 133.

DISTRIBUTION. Type locality: Russia: Primorye, Ussuri Reserve. Palaearctic: Kyrgyzstan, Russia (Altai, Blagoveschensk, Karachai-Cherkessia, Leningrad, Murmansk, Vladivostok, Yakutia), Spain, Turkey (Rize), Ukraine. Trans-Eurasian temperate.

16. *Chrysotus gramineus* (Fallén, 1823)

REFERENCES. Negrobov, Chalaya, 1991: 67 (C Yakutia: Lena River valley, Lena-Amga interfluvie, Amga River valley; N Yakutia; NE Yakutia).

DISTRIBUTION. Type locality: not given [Sweden]. Palaearctic: Abkhazia, Andorra, Armenia, Austria, Azerbaijan, Belarus, Belgium, Bosnia and Herzegovina, Bulgaria, China, Czech Republic, Denmark, Estonia, Finland, France, Georgia, Germany, Greece, Hungary, Ireland, Italy, Korea, Kyrgyzstan, Latvia, Lithuania, Moldova, Netherlands, Norway, Poland, Romania, Russia (Adygea, Alania, Altai Rep., Arkhangelsk, Bashkortostan, Blagoveschensk, Buryatia, Chelyabinsk, Chita, Chukotka, Crimea, Irkutsk, Kabardino-Balkaria, Karachai-Cherkessia, Karelia, Khabarovsk, Kostroma, Krasnodar, Krasnoyarsk, Kursk, Leningrad, Lipetsk, Mordovia, Moscow, Murmansk, Novgorod, Orel, Orenburg, Pskov, Ryazan, Sakhalin, Tatarstan, Tomsk, ?Ural, Vologda, Voronezh, Yakutia, Yaroslavl), Slovakia, ?Slovenia, Spain, Sweden, Switzerland, Tajikistan, Turkey (Hakkari, Erzurum, Kars), Turkmenistan, UK, Ukraine (Cherkasy, Kharkiv, Kherson). Multiregional polyzonal.

17. *Chrysotus laesus* (Wiedemann, 1817)

REFERENCES. Maslova et al., 2011: 466 (NE Yakutia).

DISTRIBUTION. Type locality: Germany: Kiel. Palaearctic: Armenia, Austria, Belarus, Belgium, Bosnia and Herzegovina, Bulgaria, China, Czech Republic, Denmark, Estonia, Finland, France, Georgia, Germany, Hungary, Italy, N Kazakhstan, Latvia, Lithuania, Moldova, Netherlands, Norway, Poland, Romania, Russia (Adygea, Altai Rep., Bashkortostan, Blagoveschensk, Buryatia, Chechnya, Chelyabinsk, Crimea, Dagestan, Ekaterinburg, Irkutsk, Karachai-Cherkessia, Karelia, Krasnodar, Krasnoyarsk, Kursk, Leningrad, Lipetsk, Magadan, Moscow, Orenburg, Omsk, Pskov, Ryazan, Tatarstan, Tomsk, Vladivostok, Voronezh, Yakutia, Yaroslavl), Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Tajikistan, Turkey (Kars), UK, Ukraine (Carpathians, Cherkasy, Kharkiv). Trans-Palaearctic temperate.

18. *Chrysotus ljtutengensis* Negrobov et Zurikov, 1986

REFERENCES. Negrobov, Tsukrikov, 1986: 632 (C Yakutia: Lena-Amga interfluvie).

MATERIAL EXAMINED. **W Yakutia:** 1♂, Leninsky [=Nyurbinsky] District, Nyurba, 28.06.1987, Zlobin (ZIN); **SW Yakutia:** 2♂, Lensky District, vil. Tolon, 16.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: Russia: Yakutia, Lyutenge River, road to Amga River. Palaearctic: Russia (Yakutia). Conditional endemic, boreal. New for W and SW Yakutia.

19. *Chrysotus neglectus* (Wiedemann, 1817)

REFERENCES. Negrobov, Chalaya, 1991: 68 (**C Yakutia:** Lena-Amga interfluve; Amga River valley; Lena River valley).

MATERIAL EXAMINED. **C Yakutia:** 2♂, Yakutsk, 19-20.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: "Holstein". Palaearctic: Armenia, Austria, Belarus, Belgium, Bosnia and Herzegovina, China (Shanghai) Czech, Denmark, Estonia, Germany, Ireland, Finland, France, Hungary, Kazakhstan, Kyrgyzstan, Latvia, Lithuania, Madeira, Mongolia, Netherlands, Norway, Poland, Romania, Russia (Alania, Altai, Arkhangelsk, Blagoveschensk, Bryansk, Buryatia, Chechnya, Chelyabinsk, Chita, Dagestan, Kamchatka, Karelia, Khabarovsk, Krasnodar, Krasnoyarsk, Kursk, Leningrad, Mordovia, Moscow, Murmansk, Novgorod, Omsk, Pskov, Samara, Tomsk, Vladivostok, Voronezh, Yakutia), Spain, Sweden, Switzerland, Tajikistan, UK, Ukraine (Cherkasy, Kiev, Lvov, Sumy, Uzhgorod), Uzbekistan. Trans-Palaearctic polyzonal.

20. *Chrysotus nudisetus* Negrobov et Maslova, 1995

REFERENCES. Negrobov, Maslova, 1995: 460 (**NE Yakutia:**).

DISTRIBUTION. Type locality: Russia: Sakhalin, Anivskii distr. Palaearctic: Japan, Russia (Chukotka, Khabarovsk, Magadan, Sakhalin, Vladivostok, Yakutia). East-Siberian-Far-Eastern temperate.

21. *Chrysotus obscuripes* Zetterstedt, 1838

REFERENCES. Grichanov, 2002: 122 (**C Yakutia:** Lena-Amga interfluve).

DISTRIBUTION. Type locality: Sweden: "Laponica Umensi, Fredrica". Palaearctic: Armenia, Austria, Belgium, China, Czech Republic, Denmark, Estonia, Finland, France, Germany, Ireland, Kyrgyzstan, Latvia, Lithuania, Netherlands, Norway, Romania, Russia (Blagoveschensk, Karelia, Leningrad, Yakutia), Sweden, Switzerland, Turkey (Erzurum, Kars), UK, Ukraine. Euro-Siberian-Central-Asian, boreal-montane.

22. *Chrysotus orientalis* Negrobov et Zurikov, 2000

REFERENCES. Negrobov et al., 2000b: 231 (**C Yakutia:** Lena River valley, Lena-Amga interfluve).

MATERIAL EXAMINED. **C Yakutia:** 1♂, Yakutsk, Botanical Garden, 20.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: [Inner] Mongolia: Khentaimak, Kerulen River, 40 km WSW Bayan-Obo. Palaearctic: China (Inner Mongolia), Mongolia, Russia (Altai Rep., Buryatia, Chita, Vladivostok, Yakutia). East-Siberian-Far-Eastern temperate.

23. *Chrysotus pulchellus* Kowarz, 1874

REFERENCES. Maslova, 2006: 119 (**NE Yakutia:** unpubl.); Grichanov, 2017: 131.

MATERIAL EXAMINED. **W Yakutia:** 1♂, Suntarsky District, vil. Kutana, 2.07.1987, Zlobin (ZIN); **C Yakutia:** 6♂, Amginsky District, Mikhailovka, 24, 25, 27.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: Asch [=Ash, Czech Republic]. Palaearctic: Armenia, Austria, Belarus, Bulgaria, China, Czech Republic, Denmark, Estonia, Finland, France, Georgia, Germany, Greece, Hungary, Italy, Kyrgyzstan, Latvia, Lithuania, Luxembourg, Mongolia, Netherlands, Norway, Poland, Romania, Russia (Adygea, Alania, Altai Rep., Astrakhan, Blagoveschensk, Buryatia, Irkutsk, Kabardino-Balkaria, Kamchatka, Khabarovsk, Krasnodar, Krasnoyarsk, Kursk, Leningrad, Lipetsk, Magadan, Pskov, Rostov, Ryazan, Sakhalin, Tatarstan, Voronezh, Yakutia), Serbia, Slovakia, Spain (Canary Is), Sweden, Switzerland, Turkey (Adiyaman, Antalya, Antakya, Artvin, Gaziantep, Kizildere, Sanliurfa), UK, Ukraine (Cherkasy, Kherson, Odessa). Trans-Palaearctic, polyzonal.

Karelia, Krasnodar, Krasnoyarsk, Leningrad, Murmansk, Ryazan, Sayan Mountains, Tatarstan, Voronezh, Yakutia), Slovakia, Spain, Sweden, Switzerland, Turkey (Adapazarı), UK, Ukraine. Euro-Siberian-Central-Asian, temperate. New species for C and W Yakutia.

24. *Chrysotus sibiricus* Negrobov et Maslova, 1995*

MATERIAL EXAMINED. **SW Yakutia:** 2♂, Biryuk River, 4 km from Melichen River mouth, 13-14.07.2008, Bagachanova (ZIN); 1♂, Biryuk River mouth, 11.07.2008, Bagachanova (ZIN).

DISTRIBUTION. Type locality: Siberia: Nizhnyaya Angara, Taltsy. Palaearctic: Russia (Irkutsk, Krasnoyarsk, Kamchatka, Yakutia). East-Siberian-Far-Eastern boreal. New species for Yakutia.

HABITATS. *Allium*, *Carex* and *Eleocharis* communities at river banks.

25. *Chrysotus smithi* Negrobov, 1980*

REFERENCES. Maslova, 2006: 124 (**C Yakutia:** Amga River valley; unpubl.).

MATERIAL EXAMINED. **W Yakutia:** 1♂, Suntarsky District, vil. Kutana, 4.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: Russia: Baikal, Listvanka, Barguzin Reserve, Davshe. Palaearctic: Mongolia, Russia (Blagoveschensk, Buryatia, Yakutia). East-Siberian-Far-Eastern, boreal. First published record from Yakutia.

26. *Chrysotus suavis* Loew, 1857

REFERENCES. Negrobov, Chalaya, 1991: 69 (**C Yakutia:** Lena River valley, Amga River valley, Lena-Amga interfluve); Maslova et al., 2011: 467 (NW, C and NE Yakutia).

DISTRIBUTION. Type locality: Germany: "Coln"; Austria: "Neusiedler See in Ungarn". Palaearctic: Afghanistan, Algeria, Armenia, Austria, Azerbaijan, Belgium, Bosnia and Herzegovina, Bulgaria, N China, Croatia, Czech Republic, Egypt, Estonia, Finland, France, Georgia, Germany, Greece (North Aegean), Hungary, Iraq, Iran, Israel, Italy, Kyrgyzstan, Latvia, Lithuania, Middle Asia, Mongolia, Morocco, Netherlands, Norway, Poland, Romania, Russia (Adygea, Alania, Altai Rep., Astrakhan, Blagoveschensk, Buryatia, Irkutsk, Kabardino-Balkaria, Kamchatka, Khabarovsk, Krasnodar, Krasnoyarsk, Kursk, Leningrad, Lipetsk, Magadan, Pskov, Rostov, Ryazan, Sakhalin, Tatarstan, Voronezh, Yakutia), Serbia, Slovakia, Spain (Canary Is), Sweden, Switzerland, Turkey (Adiyaman, Antalya, Antakya, Artvin, Gaziantep, Kizildere, Sanliurfa), UK, Ukraine (Cherkasy, Kherson, Odessa). Trans-Palaearctic, polyzonal.

HABITATS. *Cornus* communities on meadows.

27. *Chrysotus viridifemoratus* von Roser, 1840

Chrysotus monochaetus Kowarz, 1874.

REFERENCES. Negrobov, Chalaya, 1999: 68 (as *Chrysotus monochaetus* Kowarz) (**C Yakutia:** Lena-Amga interfluve); Negrobov et al., 2000a: 84).

DISTRIBUTION. Type locality: not given [Germany: Wurttemberg]. Palaearctic: Austria, Belgium, Czech, England, France, Germany, Hungary, Italy, Netherlands, Poland, Romania; Russia (Krasnoyarsk Terr., Novosibirsk Region, Taimyr, Yakutia, Yamalia), Slovakia, Switzerland; Ukraine (Carpathians, Chernovtsi). Euro-Siberian temperate.

28. *Chrysotus zlobinianus* Negrobov et Maslova, 1995

REFERENCES. Maslova, 2006: 127 (**NE Yakutia:** unpubl.).

DISTRIBUTION. Type locality: Russia: Sakhalin, Anivskii distr., Lyutaga River. Palaearctic: Russia (Sakhalin, Yakutia). North-East-Siberian-Far-Eastern boreal.

29. *Diaphorus nigricans* Meigen 1824*

MATERIAL EXAMINED. SW Yakutia: 2♂, Biryuk River, left tributary of Lena River, 14 km from mouth, 16.07.2008, Bagachanova (IBPC).

DISTRIBUTION. Type locality: Germany. Palaearctic: Abkhazia; Austria, Belarus, Belgium, China, Czech, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, India: Kashmir, Ireland, Italy, Israel; Netherlands, Norway, Poland, Romania, Russia (Karelia, Krasnodar, Leningrad, Moscow, Murmansk, Yakutia); Spain, Sweden, Switzerland, UK; Afrotropical, Nearctic, Oriental and Neotropical Regions. Multiregional polyzonal. New for Yakutia.

HABITATS. Plant communities at river bank; *Carex* communities at spruce forest.

30. *Dolichopus agilis* Meigen, 1824

REFERENCES. Stackelberg, 1930a: 27 (C Yakutia: *Yakutsk*); Grichanov, Bagachanova, 2006: 130 (C Yakutia: *Lena-Amga interfluve*).

DISTRIBUTION. Type locality: not given. Palaearctic: Andorra, Austria, Belgium, Bosnia and Herzegovina, Czech, China (Hebei, Inner Mongolia, Ningxia, Gansu), Denmark, Estonia, France, Germany, Hungary, Italy, Kazakhstan, Poland, Netherlands, Slovakia, Sweden, Switzerland, Russia (Altai Rep., Blagoveshchensk, Buryatia, Irkutsk, Kuril Is., Novosibirsk, Sayan Mts., Vladivostok, Yakutia), UK, Ukraine. Trans-Eurasian temperate.

31. *Dolichopus amginensis* Stackelberg, 1928

REFERENCES. Stackelberg, 1928: 267; Stackelberg, 1930a: 29 (C Yakutia: *Lena-Amga interfluve*).

DISTRIBUTION. Type locality: Russia: Yakutsk Distr., Abyj, Berdzhanshiach. Palaearctic: Russia (N Ural, Yakutia). Ural-Siberian boreal.

32. *Dolichopus angustipennis* Kertesz, 1901

REFERENCES. Stackelberg, 1930a: 31 (C Yakutia: *Yakutsk*); Negrobov, Chalaya, 1991: 69 (C Yakutia: *Lena-Amga interfluve; Lena River valley*); Grichanov, 2002: 122 (C Yakutia: *Lena-Amga interfluve*); Grichanov, Bagachanova, 2006: 130 (C Yakutia: *Lena-Amga interfluve, Lena River valley*).

MATERIAL EXAMINED. W Yakutia: 3♂, 1♀, Kyukei Lake, vil. Tumul env., 60 km NE vil. Suntar, N 62°43'38", E 117°45'44", 27.06.2011, Sivtseva (IBPC); 1♂, Sordonokh Lake, 3 km NW vil. Kempendyai, N 62°02'57", E 118°36'03", 24.04.2011, Sivtseva (IBPC); C Yakutia: 1♂, Khomustakh, 27.07.1969, Sychevskaya (ZIN); Lena-Amga interfluve: 1♂, 3♀, 45 km NE Yakutsk, Kysynny Aryylaakh, 19.06.2008, Bagachanova (IBPC); 1♂, 1♀, vil. Borgontsy env., 95 km NE Yakutsk, 19.06.2008, Bagachanova (IBPC); Lena River valley: 2♀, Khatassy, 10 km SW Yakutsk, pig farm, 16.07.1986, Bagachanova (IBPC); Amga River valley: 1♂, 1♀, Amga River, Mikhailovka, 22.06.1986, Bagachanova (IBPC); SW Yakutia: 1♀, Biryuk River mouth, 11.07.2008, Bagachanova (IBPC).

DISTRIBUTION. Type locality: Russia: Kazan. Palaearctic: Finland, Germany, Russia (Buryatia, Irkutsk, Kamchatka, Karelia, Tatarstan, Primorskii Terr., Yakutia), Georgia, Kazakhstan, China. Trans-Palaearctic boreal-montane. New for W and SW Yakutia.

HABITATS. Cereals; *Carex*, *Scolochloa*, *Eleochara* mesophyte and hygrophyte communities; lake banks.

Dolichopus annulipes Zetterstedt, 1838

REMARKS. We didn't find publications with the original material for this species collected eastward of the Urals. Most probably, Yakutia, Magadan Region and Primorsky Territory were in error included in the species area [Negrobov et al., 2000a: 84], which was repeated in a number of the subsequent publications.

33. *Dolichopus annulitarsis* Ringdahl, 1920

REFERENCES. Stackelberg, 1930a: 31 (NW Yakutia); Grichanov, Bagachanova, 2006: 130 (C Yakutia: *Lena River valley*).

MATERIAL EXAMINED. W Yakutia: 1♂, vil. Arylakh, SE Mirnyi, 8, 9.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: Sweden: Lapland, Tornetrak. Palaearctic: Sweden, Russia (Karelia, N Ural, Yakutia, Magadan, Kamchatka); Nearctic: Alaska. Holarctic, Arctic-boreal. New for W Yakutia.

34. *Dolichopus basalis* Loew, 1859*

MATERIAL EXAMINED. C Yakutia: *Lena-Vilyu interfluve*: 1♂, Keptik, 20 km NW Berdigestyakh, 10.07.1982, Bagachanova (ZIN).

DISTRIBUTION. Type locality: "Chamar-Daban" Ridge (Siberia). Palaearctic: Korea, Russia (Buryatia, Chita, Irkutsk, Kamchatka, Khabarovsk, Yakutia). East-Siberian-Far-Eastern, temperate. New for Yakutia.

HABITATS. *Spiraea salicifolia* communities.

35. *Dolichopus bianchii* Stackelberg, 1929

REFERENCES. Stackelberg, 1929: 173; 1930: 36 (C Yakutia: *Lena-Amga interfluve*); Negrobov, Chalaya, 1991: 70 (C Yakutia: *Lena River valley*); Grichanov, 2002: 122 (C Yakutia: *Lena-Amga interfluve*); Grichanov, Bagachanova, 2006: 130 (C Yakutia: *Lena-Amga interfluve*).

MATERIAL EXAMINED. SW Yakutia: 1♂, Biryuk River mouth, 11.07.2008, Bagachanova (IBPC).

DISTRIBUTION. Type locality: Russia: "Nord Ural: Voikar-Flufisysteme; Jakutien: Keedej-See, Berdzastjach". Palaearctic: China, Mongolia, Russia (Yamalia, Yakutia, Khabarovsk, Vladivostok). Siberian-Far-Eastern temperate. New for SW Yakutia.

HABITATS. Riparian communities, horsetail, spruce.

36. *Dolichopus brevipennis* Meigen, 1824

REFERENCES. Stackelberg, 1930a: 39 (C Yakutia); Negrobov, Chalaya, 1991: 70 (C Yakutia: *Lena River valley, Lena-Amga interfluve, Amga River valley*); Grichanov, 2002: 122; Grichanov, Bagachanova, 2006: 130 (C Yakutia: *Lena-Amga interfluve, Lena River valley; SW Yakutia*).

MATERIAL EXAMINED. W Yakutia: Kyukei Lake, vil. Tumul env., 60 km N vil. Suntar, N 62°43'38", E 117°45'44", 27.06.2011, Sivtseva (IBPC); C Yakutia: *Lena River valley*: 2♂, Yakutsk, 19.07.1987, Zlobin (ZIN); 1♂, Elanka, alas Ebe, , 30.06.2008, Bagachanova (IBPC); SW Yakutia: 1♂, Biryuk River mouth, 11.07.2008, Bagachanova (IBPC); 1♀, env. vil. Solyanka, env. Oleminsk, 25.08.2008, Bagachanova (IBPC).

DISTRIBUTION. Type locality: Sweden. Palaearctic: Austria, Belarus, Belgium, China (Xinjiang), Czech Republic, Denmark, Estonia, Finland, France, Germany, Ireland, Italy, N Kazakhstan, Latvia, Lithuania, Netherlands, Norway, Poland, Russia (Adygea, Altai Rep., Altai Terr., Arkhangelsk, Baskortostan, Buryatia, Cis-Baikalia, Irkutsk, Kabardino-Balkaria, Karelia, Khantia-Mansiya, Krasnodar, Kirov, Komi, Leningrad, Moscow, Murmansk, Novgorod, Omsk, Orenburg, Perm, Pskov, Ryazan, Tomsk, Tyumen, Voronezh, Yaroslavl, Vladivostok, Yakutia), Sweden, UK; Nearctic: Canada and USA: Alaska, Yukon, British Columbia, Northwest Terr., Montana, Alberta, Saskatchewan, Quebec, Prince Edward Is, Newfoundland (Labrador). Holarctic temperate. New for W Yakutia.

HABITATS. *Scolochloa*, *Carex*, *Rumex*, *Alisma*, cereal hygrophyte communities on meadows, river banks, swamps, spruce forest edge.

37. *Dolichopus calceatus* Parent, 1927

REFERENCES. Grichanov, 2002: 122 (C Yakutia: *Lena-Amga*

interfluve); Grichanov, Bagachanova, 2006: 130 (**C Yakutia**: *Lena-Amga interfluve, Lena River valley*).

MATERIAL EXAMINED. **C Yakutia**: 1♂, env. vil. Markha, 10 km N Yakutsk, ISL station, 19.07.2004, Bagachanova (ZIN).

DISTRIBUTION. Type locality: Russia: “Transbaikale; Pjatschanka, b. Tschita”. Palaeartic: China, Kazakhstan, Russia (Tomsk, Chita, Irkutsk, Amur, Kamchatka Regions, Altai Rep., Khabarovsk, Primorskii Terr., Buryatia, Yakutia). Siberian-Far-Eastern temperate.

HABITATS. Riparian plant communities.

38. *Dolichopus clavipes* Haliday, 1832

REFERENCES. Stackelberg, 1930a: 44 (**C Yakutia**: *Yakutsk*); Negrobov, Chalaya, 1991: 70 (**C Yakutia**: *Lena River valley*); Negrobov, Rodionova, 2004: 192 (**C Yakutia**: *Yakutsk*); Grichanov, 2002: 122 (**C Yakutia**: *Lena-Amga interfluve*); Grichanov, Bagachanova, 2006: 131 (**C Yakutia**: *Lena-Amga interfluve, Lena River valley*).

MATERIAL EXAMINED. **C Yakutia**: *Lena-Amga interfluve*: 2♂, Borogontsy, 96 km NE Yakutsk, alas, 19.06.2008, Bagachanova (IBPC); 3♀, Tyungulyu, Kysynny Aryylaakh, Bagachanova (IBPC); 1♀, Balyktakh, 55 km N Yakutsk, alas Ilin Keeser, 19.07.2008, Bagachanova (IBPC); *Lena River valley*: 1♂, 1♀, 37 km N vil. Namtsy, 24.06.2011, Novogitsyna (IBPC); 3♂, 2♀, Elanka, alas Ebe, 30.06.2008; 1♀, Elanka, Lena River bank, 28.08.2008; 5♀, Oktemtsy, 12, 17, 23.06.1977; 1♀, 2♀, Khatassy, pig farm, 16.07.2006; 2♀, Breeding farm, 5 km SW Yakutsk, 14.06.2006, Bagachanova (IBPC); 1♂, Yakutsk, 21.07.1987, Zlobin (ZIN); **SW Yakutia**: 1♀, 1♂, Biryuk River mouth, 11.07.2008, Bagachanova (IBPC); **W Yakutia**: 6♂, Leninsky [=Nyurbinsky] District, Nyurba, 25, 30.06.1987, Zlobin (ZIN); 2♂, Suntarsky District, vil. Kutana, 2.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: Ireland: Holywood. Palaeartic: Austria, Belgium, Czech, China (Xinjiang), Denmark, Finland, France, Germany, Hungary, Iran, Ireland, Kazakhstan, Mongolia, Netherlands, Norway, Poland, Russia (Buryatia, Irkutsk, Krasnodar, Krasnoyarsk, Murmansk, Novosibirsk, Orenburg, Yakutia), Spain, Sweden, Tajikistan, UK, Ukraine (Kherson, Odessa, Zaporizhzhya), Uzbekistan. Euro-Siberian-Central-Asian temperate. New for W and SW Yakutia.

HABITATS. Riparian and forb-cereal plant communities; hygrophyte, mesophyte, xerophyte communities; lake banks, steppe slopes, meadows, swamps; willow bed, birch forest, *Potentilla*, *Equisetum*.

REMARKS. Stackelberg [1930a: 45] and Negrobov, Chalaya [1991: 70] recorded also subspecies *Dolichopus clavipes fusiformis* Becker, 1917 from the Republic (**C Yakutia**: *Lena-Amga interfluve; Lena River valley*).

39. *Dolichopus costalis* Frey, 1915

REFERENCES. Stackelberg, 1930a: 45 (**C Yakutia**: *Yakutsk*); Negrobov, Chalaya, 1991: 70 (**C Yakutia**: *Lena River valley; Lena-Amga interfluve*).

DISTRIBUTION. Type locality: Russia: “Petrosawodsk”. Palaeartic: Finland, Sweden, Russia (Karelia, Yakutia), Mongolia. Euro-Siberian boreal.

40. *Dolichopus czechanovskii* Stackelberg, 1928

REFERENCES. Stackelberg, 1928: 263; Stackelberg, 1930a: 47 (**NW Yakutia**).

DISTRIBUTION. Type locality: Russia: “Nord-Sibirien, Olenyok”. Palaeartic: Russia (Altai Rep., Yakutia); Nearctic: Canada, USA. East-Siberian-Nearctic, Arctic-boreal.

41. *Dolichopus discifer* Stannius, 1831

Dolichopus nigricornis Becker, 1917 et auctt. (nec Meigen, 1824), misidentification.

REFERENCES. Negrobov et al., 2000: 84 (as *Dolichopus nigricornis* Meigen, 1824).

MATERIAL EXAMINED. **S Yakutia**: 1♂, Gorkit, 80 km from vil. Torgo, point 4, 8.07.2010, Potapova (IBPC).

DISTRIBUTION. Type locality: Germany. Palaeartic: Austria, Belgium, Belarus (Minsk), Bulgaria, Czech, Denmark, England, Estonia, Finland, France, Georgia, Germany, Hungary, Ireland, Italy, N Kazakhstan, Latvia, Lithuania, Netherlands, Norway, Poland, Romania, Russia (Altai Rep., Baikal, Karelia, Khabarovsk, Leningrad, Mordovia, Moscow, Murmansk, Novgorod, Sakhalin, Vladivostok, Vologda, Yakutia), Slovakia, Sweden, Switzerland, Ukraine (Kharkiv); Nearctic: Canada, USA: Alaska, British Columbia to Quebec and Nova Scotia, southward to Colorado and New York. Holarctic temperate. First reliable record from Yakutia.

42. *Dolichopus divisus* Becker, 1917*

MATERIAL EXAMINED. **NEz Yakutia**: 1♂, Verkhoyanskii Ridge, Ilderkei Lake, Orto-Sala river head, 970 m a. s. l., 18.07.1991, Vinokurova (ZIN).

DISTRIBUTION. Type locality: Russia: “Urga, Irkutsk”. Palaeartic: China, Mongolia, Russia (Irkutsk, Yakutia). New for Yakutia.

43. *Dolichopus eous* Stackelberg, 1929

REFERENCES. Stackelberg, 1930a: 50 (**C Yakutia**: *Yakutsk*). Negrobov, Chalaya, 1991: 70 (**C Yakutia**: *Lena River valley*).

DISTRIBUTION. Type locality: Russia: “Flus Ona and Jakutsk”. Palaeartic: Mongolia, Russia (Yakutia, Baikal, Vladivostok). East-Siberian-Far-Eastern temperate.

44. *Dolichopus flavipes* Stannius, 1831

REFERENCES. Stackelberg, 1930a: 53 (**C Yakutia**: *Yakutsk*). Negrobov, Chalaya, 1991: 70 (**C Yakutia**: *Lena River valley*).

DISTRIBUTION. Type locality: France: Marseille. Palaeartic: Austria, ?Denmark, Finland, France, Germany, Czech, Hungary, Poland, Romania, Russia (Irkutsk, Buryatia, Krasnoyarsk, Yakutia, Russian Far East), ?Sweden, Switzerland, Uzbekistan; Nearctic: USA: Alaska. Holarctic temperate.

45. *Dolichopus fraterculus* Zetterstedt, 1843

REFERENCES. Stackelberg, 1930a: 53 (**NE Yakutia**, **NW Yakutia**).

MATERIAL EXAMINED. **NE Yakutia**: 1♂, 1♀, 15 km NE vil. Khaiysardakh, Khaiysardakh, 18.07.2010, Potapova (IBPC); **SW Yakutia**: 1♂, Biryuk River, 5 km from Melichan River mouth, 14.07.2008, Bagachanova (IBPC); **S Yakutia**: 1♂, Malyi Nimnyr, 97 km W vil. Chulman, 10.07.2010, Potapova (IBPC).

DISTRIBUTION. Type locality: Sweden: Jemtlandia meridionali, Asarne. Palaeartic: Finland, Lithuania, Norway, Sweden, Russia (Altai Rep., Karelia, Murmansk, Yamalia, Yakutia, Magadan, Kuril Is.); Nearctic: Canada, USA. Holarctic boreal. New for SW and S Yakutia.

HABITATS. Hummocky tundra, birch-sedge communities.

46. *Dolichopus galeatus* Loew, 1871

REFERENCES. Stackelberg, 1930a: 55 (**C Yakutia**: *Yakutsk*). Negrobov, Chalaya, 1991: 71 (**C Yakutia**: *Yakutsk*); Grichanov, 2002: 123 (**C Yakutia**: *Lena-Amga interfluve*); Grichanov, Bagachanova, 2006: 130 (**C Yakutia**: *Lena-Amga interfluve, Lena River valley*).

MATERIAL EXAMINED. **NE Yakutia**: 1♀, Verkhoyanskii Ridge, Ilderkei Lake, Orto-Sala river head, 21.07.1991, 750 m a. s. l., 18.07.1991, Vinokurov (IBPC); **C Yakutia**: *Lena River valley*: 1♂, Yakutsk, 18.07.1969, Sychevskaya (ZIN); 1♂, Khomustakh, 27.07.1969, Sychevskaya (ZIN); 1♀, Oktemtsy, 28.06.1977, Bagachanova (IBPC); 1♀, Tabaginskii cape, 36 km SW Yakutsk, Malaise trap, 28–30.06.2009, Bagachanova (IBPC); 1♂, 2♀, Labyda Lake, 17 km SW vil. Sitte, 21.07.2012, Sivtseva (IBPC); *Amga River valley*: 2♂, 2♀, Amginsky District, Mikhailovka, 24, 28.07, 2.08.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: Russia: "Sibirien". Palaearctic: (Blagoveschensk, Buryatia, Irkutsk, Kamchatka, Khabarovsk, Yakutia), China (Heilongjiang). East-Siberian-Far-Eastern temperate. New for NE Yakutia.

HABITATS. Hummocky tundra, birch-sedge and cereal-sedge hygrophyte communities.

47. *Dolichopus gorodkovi* Negrobov, 1973

REFERENCES. Negrobov, Chalaya, 1991: 70 (C *Yakutia*: *Yakutsk*); Grichanov, Bagachanova, 2006: 130 (W *Yakutia*: C *Yakutia*: *Lena River valley*).

MATERIAL EXAMINED. C *Yakutia*: 2♂♀, Amga River valley: vil. Megino-Aldan, 20 km downstream Amga mouth, floodplain, 30.06.1981, Bagachanova (IBPC); 1♂, Middle Lena River, 10 km upstream Aldan River mouth, 2.07.2002, Potapova N.K. (ZIN).

DISTRIBUTION. Type locality: Russia: Sayan Mountains, Khargun, 6 km E Kyren. Palaearctic: Russia (Buryatia, Chita, Irkutsk, Vladivostok, Yakutia). East-Siberian-Far-Eastern temperate.

48. *Dolichopus griseifacies* Becker, 1917*

MATERIAL EXAMINED. SW *Yakutia*: 1♂, Biryuk River, 5 km from Melichan River mouth, 14.07.2008, Bagachanova (IBPC); C *Yakutia*: 1♂, Lena-Vilyui interflue, Baranattalakh Lake, 12 km SE vil. Mastakh, 9.08.2012, Potapova N.K. (ZIN).

DISTRIBUTION. Type locality: Russia: "Irkutsk, Sibirien". Palaearctic: Russia (Blagoveschensk, Buryatia, Irkutsk, Khabarovsk, Vladivostok, Yakutia). East-Siberian-Far-Eastern temperate. New for Yakutia.

HABITATS. Riparian plant communities; *Calamagrostis*, *Carex*.

49. *Dolichopus humilis* Van Duzee, 1921

REFERENCES. Negrobov, Grichanov, 2013: 499 (N *Yakutia*).

DISTRIBUTION. Type locality: USA: Alaska-Yukon Territory boundary. Palaearctic: Russia (Chukotka, Taimyr, N *Yakutia*, Yamalia); Nearctic: USA (Alaska), Canada, Greenland. Holarctic Arctic.

50. *Dolichopus ivanovi* Stackelberg, 1929

REFERENCES. Stackelberg, 1929: 170 (C *Yakutia*: *Lena River valley*).

DISTRIBUTION. Type locality: Russia: "Kreis Jakutsk: Katshikatskij Nasleg, am rechten Uferungefahr 100 km aufwärts von Jakutsk". Palaearctic: Russia: Yakutia, Kamchatka; Nearctic: USA: Alaska. East-Siberian-Alaskan boreal.

51. *Dolichopus jacutensis* Stackelberg, 1929

REFERENCES. Stackelberg, 1929: 176; Negrobov, Chalaya, 1991: 71; (C *Yakutia*: *Lena-Amga interflue*, *Amga River valley*; NE *Yakutia*; W *Yakutia*); Grichanov, Bagachanova, 2006: 132 (C *Yakutia*: *Lena River valley*).

MATERIAL EXAMINED. S *Yakutia*: 2♂, Aldan upland, Oymurak River mouth, 10.08.2010, Nogovitsyna (IBPC).

DISTRIBUTION. Type locality: Russia: "Jakutien, Tumullur-anna, bei Amga, Chattygm-tordo, bei Amga; Werchojansk". Palaearctic: Russia (Yakutia, Magadan, Blagoveschensk). East-Siberian-Far-Eastern boreal. New for S *Yakutia*.

52. *Dolichopus jakutus* Selivanova et Negrobov, 2011

REFERENCES. Selivanova, Negrobov, 2011: 64 (C *Yakutia*: *Lena River valley*).

DISTRIBUTION. Type locality: Yakutia: Yakutsk env., Kantagai. Palaearctic: Russia (Yakutia). Conditional endemic, boreal.

53. *Dolichopus kjadi* Stackelberg, 1929

REFERENCES. Stackelberg, 1929: 174 (C *Yakutia*: *Yakutsk*);

Grichanov, Bagachanova, 2006: 132 (C *Yakutia*: *Lena-Amga interflue*, *Lena River valley*).

MATERIAL EXAMINED. C *Yakutia*: 3♂, Yakutsk, 19, 21.07.1987, Zlobin (ZIN); 1♂, Khanganassky ulus, Elanka, 130 km SW Yakutsk, 30.06.2005, Bagachanova (IBPC).

DISTRIBUTION. Type locality: Russia: "aus verschiedenen Orten des Distrikts Jakutsk". Palaearctic: Russia (Buryatia, Chita, Irkutsk, Kemerovo, Krasnoyarsk, "Sayan Mountains", Yakutia), Mongolia. East-Siberian boreal.

HABITATS. Forb communities on slope.

54. *Dolichopus latilimbatus* Macquart, 1827

REFERENCES. Negrobov et al., 2013: 58 (*Yakutia*).

REMARKS. Yakutia was in error included in the area of the species by Negrobov et al. [2013] who erroneously cited Stackelberg [1930a] in their species list. Subsequently, this error was repeated in several more lists.

55. *Dolichopus latipennis* Fallén, 1823

REFERENCES. Stackelberg, 1933: 112 (C *Yakutia*: *Yakutsk*); Grichanov, Bagachanova, 2006: 132 (C *Yakutia*: *Lena-Amga interflue*, *Lena River valley*); Negrobov et al., 2009: 43 (C *Yakutia*: *Lena River valley*).

MATERIAL EXAMINED. W *Yakutia*: 3♂, Suntarsky District, vil. Kutana, 2.07.1987, Zlobin (ZIN); 9♂, 8♀ Kyukei Lake, vil. Tumul env., 60 km NE vil. Suntar, N 62°43'38", E 117°45'44", 27.06.2011, Svitseva (IBPC); 1♀, Mokhsogollookh Lake, env. vil. Kempendyai, 61 km E vil. Suntar, N 62°02'67", E 118°36'07", 25.06.2011, Svitseva (IBPC); C *Yakutia*: 1♀, Oktemtsy, island of Lena River, 27.06.1977, Kaimuk (IBPC); 1♂, Yakutsk, 21.07.1987, Zlobin (ZIN); 1♀, Elanka, 30.06.2007; Amga River valley: Mikhailovka, 22.06.1986, Bagachanova (IBPC); 2♂, Aldan River, vil. Megino-Aldan, 5.06.1983, 13.07.1983, Bagachanova (IBPC).

DISTRIBUTION. Type locality: [Sweden:] "Paroeciae Farhult Scaniae". Palearctic: ?Austria, Belgium, Czech, Denmark, Estonia, Finland, France, Germany, Ireland, Latvia, Netherlands, Norway, Poland, Sweden, UK, N Russia (Karelia, Murmansk, Nenets), E Russia (Buryatia, Irkutsk, Kamchatka, Novosibirsk, Republic of Altai, Sakhalin, Sayan Mnt., Yakutia), Mongolia, China (Qinghai); Nearctic: Canada (Quebec, Northwest Terr.). Holarctic temperate. New for W *Yakutia*.

HABITATS. Cereals, flowering alfalfa; *Carex*, *Scolochloa*, *Potentilla* hygrophyte communities.

56. *Dolichopus lenensis*

Negrobov, Barkalov et Selivanova, 2014*

MATERIAL EXAMINED. C *Yakutia*: *Lena River valley*. 1♂, Vladimirovka, 23 km S Yakutsk, 28.06.07 (ZIN).

DISTRIBUTION. Type locality: Russia: Irkutsk government, river Lena. Palearctic: Russia (Irkutsk, Yakutia). East-Siberian boreal. New for Yakutia.

HABITATS. *Hedysarum* communities, eastern slope.

57. *Dolichopus lepidus* Staeger, 1842*

MATERIAL EXAMINED. W *Yakutia*: 1♂, Sordonokh Lake, 3 km NW vil. Kempendyai, N 62°02'67", E 118°36'03", 24.06.2011, Svitseva (IBPC); S *Yakutia*: 1♂, Malii Nimnyr, 97 km NE Chulman vil., point 2, 10.07.2010, Potapova (IBPC); SW *Yakutia*: 1♂, Biryuk River, 5 km from Melichan River mouth, 14.07.2008, Bagachanova (IBPC).

DISTRIBUTION. Type locality: Denmark: Slutningen, ved Leersøen. Palaearctic: Austria, Belarus, Belgium, Bosnia and Herzegovina, China (Shaanxi, Beijing), Czech Republic, Denmark, Estonia, Finland, France, Georgia, Kazakhstan, Latvia, Mongolia, Netherlands, Norway, Poland, Romania, Russia (Adygea, Karelia, Khabarovsk, Khantia-Mansi, Krasnodar, Krasnoyarsk, Leningrad, Magadan, Moscow, Murmansk, Novgorod, Pskov, Ryazan, Sayan Mountains, Vladiv-

vostok, Vologda, Voronezh, Yakutia), Slovakia, Spain, Sweden, Switzerland, Turkey (Kars), UK; Oriental: China. Trans-Eurasian temperate. New for Yakutia.

HABITATS. Riparian communities; *Carex* at bank of lakes and rivers.

57. *Dolichopus linearis* Meigen, 1824

REFERENCES. Stackelberg, 1930a: 64 (C **Yakutia**: *Yakutsk*); Grichanov, Bagachanova, 2006: 129 (C **Yakutia**: *Lena-Amga interfluvies*; SW **Yakutia**).

MATERIAL EXAMINED. W **Yakutia**: 1♂, Mirnyi, dredge area, factory N5, pile, 8.07.2001, Nogovitsyna (IBPC); C **Yakutia**: *Lena River valley*: 1♂, Tabaginskii cape, 38 km Pokrovsky road, branch, Malaise trap, 11–13.08.2010, Bagachanova (IBPC); 3♂♂, same label, 18.08.2010; 1♂, 1♀, Elanka, 28.06.2008; 1♂, 20 km S vil. Bulgunnakhtakh, 12.07.1977, Bagachanova (IBPC); 1♂, Aldan River, vil. Megino-Aldan, 13.07.1983, Bagachanova (IBPC); 1♂, 1♀, Amga River, Syrdyk locality, 25 km from vil. Bolugur, Malaise trap, 16.11–13.07.2009, Bagachanova (IBPC); 1♂, Amginsky District, Mikhailovka, 24.07.1987, Zlobin (ZIN); SW **Yakutia**: 2♂, 1♀, Biryuk River mouth, 11.07.2008; 2♂, Biryuk River, 4 km from Melichan River mouth, 13.07.2008; 1♂, 3♀, Lena River left bank, env. vil. Solyanka, 5 km NE Olekmansk, 24.08.2008; 5♂, 4♀, Biryuk River, water post, 18 km from mouth, 16.07.2008, Bagachanova (IBPC); 1♂, Lensky District, vil. Tolon, 14.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: not given. Palaearctic: Austria, Belgium, China (Heilongjiang, Jilin, Beijing, Inner Mongolia, Gansu, Xinjiang, Qinghai), Czech Republic, Denmark, Estonia, Finland, France, Georgia, Germany, Hungary, Ireland, Italy, Kazakhstan, Latvia, Mongolia, Netherlands, Norway, Poland, Romania, Russia (Adygea, Altai Rep., Krasnodar, Leningrad, Novgorod, Pskov, Ryazan, Vologda, Voronezh, Baikal, Irkutsk, Khabarovsk, Khantia-Mansiya, Krasnoyarsk, Yakutia, Magadan, Kamchatka, Amur Reg., Vladivostok, Sakhalin), Slovakia, Sweden, Switzerland, UK. Trans-Eurasian temperate. New for W Yakutia.

HABITATS. Riparian communities; forb meadow; willow bed, cereals, *Sanguisorba*, *Ranunculus*, *Carex*, *Rumex* communities; meso-hygrophyte, hygrophyte, at rocks, pebblestone, swamp, bank of lakes and rivers.

58. *Dolichopus lineatocornis* Zetterstedt, 1843*

MATERIAL EXAMINED. 1♂, C **Yakutia**: *Lena River valley*: Tabaginskii cape, Malaise trap, 23–25.06.2010, Bagachanova (IBPC).

DISTRIBUTION. Type locality: Sweden: Lund. Palaearctic: Belgium, Czech, Denmark, Estonia, Finland, Germany, Kazakhstan, Latvia, Lithuania, Netherlands, Russia (Krasnodar, Lipetsk, Pskov, Tver, Voronezh, Yakutia), Sweden, UK. Euro-Siberian temperate. New for Yakutia.

HABITATS. *Agropyron* steppe community; at slope.

59. *Dolichopus litorellus* Zetterstedt, 1852

REFERENCES. Stackelberg, 1933: 65 (C **Yakutia**: *Yakutsk*); Negrobov, Chalaya, 1991: 72 (C **Yakutia**: *Lena River valley*); Grichanov, Bagachanova, 2006: 132 (C **Yakutia**: *Lena-Amga interfluvies*, *Lena River valley*).

MATERIAL EXAMINED. NE **Yakutia**: 1♂, 1♀, Indigirka River, 4.5 km downstream from Kuidusun River mouth, N 63°23'57", 143°19'13" E, 12.07.2011, Bagachanova (IBPC); 1♀, old Magadan road between rivulets Small Begel Haya and Big Begel Haya, N 63°15'20", 143°43'33", 18.07.2011, Bagachanova (IBPC); 1♀, Indigirka River, 9 km downstream from Sarba River, N 63°31'23", E 142°37'02", 16.07.2011, Bagachanova (IBPC); C **Yakutia**: *Lena-Amga interfluvies*: 1♀, Tyungulyu, 1996; *Lena River valley*: 1♂, 4♀, Elanka, 30.06.2008, Bagachanova (IBPC); 1♂, 2♀, Pokrovskii road, 38 km, 16.08.2007, Evdokarova (IBPC); 2♂, 2♀, 4 km W Yakutsk, 8.08.2007, Evdokarova (IBPC); 23 km SW Yakutsk, 6.08.2007, Ermakova (IBPC); 4♂, 4♀, Khatassy, 10 km SW Yakutsk, 16.07.2006, Bagachanova (IBPC); 1♂, 18 km SW Yakutsk, N 61°52', E

129°30'79", 8.07.2006, Bagachanova (IBPC); 1♂, vil. Maimaga, 37 km N vil. Namtsy, 17.07.2003, Bagachanova (ZIN); 1♂, Amginsky District, Mikhailovka, 7.08.1987, Zlobin (ZIN); SW **Yakutia**: 5♂, 2♀, Lena River left bank, 2nd Neryuktyaiinsk, 35 km SW Olekmansk, 23.07.2008, Bagachanova (IBPC); 1♂, Biryuk River mouth, 11.07.2008, Bagachanova (IBPC); 1♂, vil. Abaga, 23 km SW Olekmansk, 21.07.2008, Bagachanova (IBPC).

DISTRIBUTION. Type locality: Sweden: Lomma Scanieae. Palaearctic: Abkhazia, Austria, Azerbaijan, Belarus, Belgium, Bulgaria, Czech Republic, Denmark, Estonia, France, Germany, Hungary, Iran, Ireland, Italy, Kazakhstan, Mongolia, Netherlands, Poland, Romania, Russia (Karachai-Cherkessia, Krasnodar, Kursk, Moscow, Orel, Pskov, Rostov, Ryazan, Ural, Voronezh, Altai, Omsk, Yakutia), Slovakia, Spain, Sweden, Switzerland, Turkey (Kocaeli-İzmit), UK, Ukraine (Ternopil), Uzbekistan. Trans-Eurasian temperate. New for NE and SW Yakutia.

HABITATS. Steppe community at slope; cereal-forb meadow; *Caltha*-*Hordeum* community on meadow; pasture; *Sparganium* at lake; legumes, *Pinus pumila*, *Leontopodium alpinum*, *Veronica*, *Epimedium*, *Campanula*, *Pedicularis*, *Thymus*, *Carex*, *Equisetum*; hygrophyte, mesophyte.

60. *Dolichopus longicornis* Stannius, 1831

REFERENCES. Stackelberg, 1933: 66 (C **Yakutia**: *Yakutsk*); Negrobov, Chalaya, 1991: 72 (W **Yakutia**; C **Yakutia**: *Lena River valley*); Grichanov, Bagachanova, 2006: 133 (C **Yakutia**: *Lena River valley*; SW **Yakutia**).

MATERIAL EXAMINED. NE **Yakutia**: 1♂, Cherskii, Kolyma River, 18.08.1971, Chelnokov (ZIN); 2♂, Yakutsk, 21.07.1987, Zlobin (ZIN); Khaiysardakh, 34 km NE Batagai vil., 3.07.2009, Potapova (IBPC). W **Yakutia**: 3♂, 1♀, Mirnyi, dredge factory, pile, 8.07.2001, Nogovitsyna (IBPC); C **Yakutia**: 5♂, Amginsky District, Mikhailovka, 30.07, 31.07, 7.08, 8.08.1987, Zlobin (ZIN); *Lena River valley*: 1♀, Elanka, 28.06.2008; Middle Lena River, 20 km S vil. Bulgunnakhtakh, 12.07.1977, Bagachanova (IBPC); 1♀, Amga River, env. Syrdyk vil., 25 km from vil. Bolugur, 16.07.2009, Bagachanova (IBPC); 1♀, Labyda Lake, 17 km NW vil. Sitte, 24.07.2012, Sivtseva (IBPC); SW **Yakutia**: 1♂, env. vil. Solyanka, 5 km N Olekmansk, 25.07.2008, Bagachanova (IBPC); 1♂, Lensky District, vil. Tolon, 14.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: not given [Germany]. Palaearctic: Austria, Belarus, Belgium, China, Czech, Denmark, Estonia, Finland, France, Germany, Hungary, Ireland, Italy, Kazakhstan, Latvia, Lithuania, Luxembourg, Mongolia, Netherlands, Norway, Poland, Romania, Russia (Altai Rep., Amur Reg., Arkhangelsk, Irkutsk, Kamchatka, Karelia, Komi, Krasnodar, Krasnoyarsk, Kuril Is., Leningrad, Lipetsk, Magadan, Moscow, Murmansk, Novgorod, Perm, Primorskii Terr., Pskov, Sakhalin, Sayany, Ural, Vologda, Voronezh, Yakutia, Yaroslavl), Serbia, Slovakia, Sweden, Switzerland, UK, Ukraine (Kherson, Carpathians); Nearctic: Canada (Yukon), USA (Alaska). Holarctic temperate. New for NE Yakutia.

HABITATS. Deciduous light forest; at rocks; cereal-forb community at slope; forb meadow; *Ranunculus* at water, *Carex*.

61. *Dolichopus maculicornis* Verrall, 1875

Dolichopus consobrinus Zetterstedt, 1859.

REFERENCES. Negrobov et al., 2000a: 84 (as *D. consobrinus* Ztt.) (**Yakutia**).

DISTRIBUTION. Type locality: Torringe-lund, Skabergsjo Scaniae, Lund, Fogelsang ad Ilstorp, Scan. [Sweden; automatic]. Palaearctic: Germany, Mongolia, Romania, Russia (Buryatia, Chita, Irkutsk, ?Yakutia), Slovakia, Sweden. Euro-Siberian temperate.

REMARKS. We didn't find publications with the original material for this species collected from Yakutia. It is

possible that Yakutia was in error included in the species area (Negrobov et al., 2000a), which was repeated in a number of the subsequent publications.

62. *Dolichopus maculipennis* Zetterstedt, 1843

REFERENCES. Grichanov, Bagachanova, 2006: 133 (C **Yakutia**: Lena River valley).

MATERIAL EXAMINED. N **Yakutia**: 1♂, Kolyma River, Pokhodsk, 40 km NW Cherskii, 6.07.1980, Bagachanova (IBPC).

DISTRIBUTION. Type locality: Scandinaviae septentrionalis, Jamtlandia boreali ad Skalstugan; Nordlandia Norvegicae, ad Bjorkvik, Hacksten, Schiervo, Giebostad [Sweden, Norway]. Palaearctic: Denmark, Estonia, Finland, Germany, Norway, Russia (Altai Rep., Kamchatka, Leningrad, Magadan, Murmansk, Yakutia), Sweden, UK; Nearctic: USA: Alaska. Holarctic, Arctic-boreal. New for N Yakutia.

HABITATS. Hygrophyte community.

63. *Dolichopus mannerheimi* Zetterstedt, 1838*

MATERIAL EXAMINED. C **Yakutia**: 1♂, D'am, 4 km N vil. Amga, 3.06.1985, Maksimova (IBPC).

DISTRIBUTION. Type locality: Sweden: "Lapponia Umensi, Stensele, Tresunda; Naestansjo; in paroecia Wilhelmina" [= Vilhehnina]. Palaearctic: China (Xinjiang, Heilongjiang), Finland, Mongolia, Norway, Russia (Altai Rep., Buryatia, Chita, Irkutsk, Kamchatka, Karelia, Khantia-Mansi, Khabarovsk, Krasnoyarsk, Magadan, Murmansk, Vladivostok, Yakutia), Sweden; Nearctic: Canada: Yukon; USA: Alaska. Holarctic temperate. New for Yakutia.

64. *Dolichopus nataliae* Stackelberg, 1930

REFERENCES. Negrobov, Chalaya, 1991: 73 (NE **Yakutia**).

DISTRIBUTION. Type locality: Russia: "Sibirie orientalis, prov. Austro-Ussuriensis, distr. Sutchaniensis; via Spassk-Jakovlevka, fl. Ugodzina, distr. Spasskensis, Tigrovaja". Palaearctic: Russia (Khabarovsk, Magadan, Vladivostok, Yakutia). North-East-Siberian-Far-Eastern temperate.

65. *Dolichopus negrobovi* Gosseries, 1989

REFERENCES. Grichanov, 2002: 123 (C **Yakutia**: Lena-Amga interflue); Grichanov, Bagachanova, 2006: 133 (NE **Yakutia**; C **Yakutia**: Lena-Amga interflue, Lena River valley).

MATERIAL EXAMINED. C **Yakutia**: 1♂, Khangalassky ulus, Malaya Keteme River, 145 km SW Yakutsk, 30.06.2005, Bagachanova (IBPC).

DISTRIBUTION. Type locality: Russia: "Burjatskaja ASSR, Ustj-Bargusinskaja Tal, Jareeha". Palaearctic: Mongolia, Russia (Blagoveshchensk, Buryatia, Irkutsk, Kamchatka, Khabarovsk, Magadan, Vladivostok, Yakutia). East-Siberian-Far-Eastern temperate.

HABITATS. Forb community.

66. *Dolichopus notatus* Staeger, 1842

REFERENCES. Negrobov, Chalaya, 1991: 73 (C **Yakutia**: Lena River valley).

DISTRIBUTION. Type locality: Denmark: "I Moser; Dyrehaven og: Engene ved Leersøen, temmelig fjelden". Palaearctic: Austria, Belgium, Czech, Denmark, Estonia, Finland, France, Germany, Hungary, Iran, Kazakhstan, Netherlands, Norway, Poland, Romania, Russia (Altai Rep., Blagoveshchensk, Karelia, Khabarovsk, Leningrad, Magadan, Moscow, Ryazan, Vladivostok, Voronezh, Yakutia), Slovakia, Sweden, Switzerland, UK. Trans-Palaearctic temperate.

67. *Dolichopus aff. orientalis* Parent, 1927

MATERIAL EXAMINED. NE **Yakutia**: 1♂, Cherskii Ridge,

Moma River head, 50 km E Pobeda Mnt., env. vil. Sasyr, 23.07.1998, Nogovitsyna (ZIN).

REMARKS. The male examined belongs most probably to an undescribed species.

68. *Dolichopus pennatus* Meigen, 1824

REFERENCES. Negrobov, Chalaya, 1991: 73 (C **Yakutia**: Lena River valley).

MATERIAL EXAMINED. SW **Yakutia**: 1♂, Biryuk River, 5 km from Melichan River mouth, 14.07.2008, Bagachanova (IBPC).

DISTRIBUTION. Type locality: not given. Palaearctic: Austria, Belarus, Belgium, Bosnia and Herzegovina, Bulgaria, Czech, Denmark, Estonia, Finland, France, Georgia, Germany, Hungary, Ireland, Italy, Latvia, Lithuania, Mongolia, Netherlands, Norway, Poland, Portugal, Romania, Russia (Adygea, Alania, Altai Rep., Altai Terr., Arkhangelsk, Blagoveshchensk, Chechnya, Irkutsk, Kabardino-Balkaria, Karachai-Cherkessia, Karelia, Khabarovsk, Krasnodar, Krasnoyarsk, Kuril Is., Leningrad, Magadan, Moscow, Murmansk, Novgorod, Pskov, Sakhalin, Tatarstan, Vladivostok, Vologda, Voronezh, Yakutia), Slovakia, Spain, Sweden, Switzerland, Turkey (Kars), UK, Ukraine. Trans-Eurasian temperate. New for SW Yakutia.

HABITATS. Riparian community, *Carex*.

69. *Dolichopus planitarsis* Fallén, 1823

REFERENCES. Grichanov, Bagachanova, 2006: 134 (C **Yakutia**: Lena River valley).

DISTRIBUTION. Type locality: Sweden: "Borringe Scaniae". Palaearctic: Austria, Belarus, Belgium, Czech, Denmark, Estonia, Finland, France, Georgia, Germany, Hungary, Ireland, Mongolia, Netherlands, Norway, Poland, Russia (Altai Rep., Kamchatka, Krasnoyarsk, Leningrad, Voronezh, Yakutia), Slovakia, Sweden, Switzerland, UK. Trans-Eurasian temperate.

70. *Dolichopus platychaetus*
Negrobov et Barkalov, 1977*

MATERIAL EXAMINED. NE **Yakutia**: 1♂, 300 km ENE vil. Khandyga, Suntar River lower reaches, at water post, Indigirka River basin, 19.07.1985, L.I. Popova (ZIN).

DISTRIBUTION. Type locality: Russia: Magadan region, river Khinikandzha. Palaearctic: Mongolia, Russia (Magadan, Yakutia). East-Siberian temperate. New for Yakutia.

71. *Dolichopus plumipes* (Scopoli, 1763)

REFERENCES. Negrobov, Chalaya, 1991: 73 (C **Yakutia**: Lena River valley); Grichanov, Bagachanova, 2006: 134 (NW and W **Yakutia**; C **Yakutia**: Lena-Amga interflue, Lena River valley).

MATERIAL EXAMINED. Solyanka, 5 km N Olekmansk, 24.07.2008; 1♂, 1♀, vil. Abaga, 23 km

SW Olekminsk, Khomustakh Lake, 20.07.2008, Bagachanova (IBPC); **S Yakutia**: 3♂, 2♀, Malyi Nimnyr, 97 km W vil. Chulman, 10.07.2010, Nogovitsyna (IBPC).

DISTRIBUTION. Type locality: Slovenia: "Carnioliae indigena". Asia (Afghanistan, Palaearctic China, Kazakhstan, Mongolia, Turkey, Uzbekistan, Russia: Baikal, Chukotka, Irkutsk, Kamchatka, Khabarovsk, Khantia-Mansia, Koryakia, Novosibirsk, Tomsk, Tyumen, Vladivostok), Caucasus, Europe; Nearctic, Neotropical and Oriental Regions. Multi-regional polyzonal. New for S and SW Yakutia.

HABITATS. Riparian communities, sedge-grass community, swamp meadow, forb meadow, steppe slope, at fir grove, pebblestone, willow bed, swamp with birches, flowering alfalfa, hummocky tundra; cereals, *Rumex*, *Carex*, *Scolochloa*, *Ranunculus*, *Sanguisorba*; mesophyte, mesohygrophyte, hygrophyte communities.

72. *Dolichopus plumitarsis* Fallén, 1823

REFERENCES. Stackelberg, 1933: 83 (**C Yakutia**: *Yakutsk*); Negrobov, Chalaya, 1991: 74 (**C Yakutia**: *Amga River valley*).

DISTRIBUTION. Type locality: Sweden. Palaearctic: Austria, Belarus, Belgium, Bulgaria, China (Heilongjiang, Hebei, Beijing, Inner Mongolia, Xinjiang), Czech, Estonia, Finland, Germany, Italy, N Kazakhstan, Netherlands, Norway, Poland, Russia (Altai Rep., Buryatia, Chita, Commander Is., Karachai-Cherkessia, Irkutsk, Khabarovsk, Krasnodar, Krasnoyarsk, Kuriles, Moscow, Perm, Sakhalin, Tomsk, Ural, Vladivostok, Voronezh, Yakutia), Slovakia, Sweden, Switzerland, UK; Nearctic: Canada (Ontario), USA (Alaska). Holarctic temperate.

73. *Dolichopus pospelovi* Smirnov, 1948

REFERENCES. Grichanov, Bagachanova, 2006: 134 (**NW Yakutia**)

MATERIAL EXAMINED. **C Yakutia**: 2♂, 2♀, Tabaginskii cape, Malaise trap, 28–30.07.2009; **NW Yakutia**: 1♂, Muna River valley (Lena River left tributary), RR «Muna», Malaise trap, 11–13.08.2005, Stepanov (ZIN).

DISTRIBUTION. Type locality: Russia: Buchta Ta-Chin-gauz, river, Sudzukhinski reserve [= Lazovski reserve]. Palaearctic: Russia (Vladivostok, Yakutia). East-Siberian-Far-Eastern temperate. New for C Yakutia.

HABITATS. Under slope at branch.

74. *Dolichopus punctum* Meigen, 1824

REFERENCES. Grichanov, Bagachanova, 2006: 134 (**C Yakutia**: *Lena River valley*; **S Yakutia**).

DISTRIBUTION. Type locality: Germany: "Gegend von Berlin". Palaearctic: Austria, Finland, Germany, Poland, Russia (Khabarovsk, Leningrad, Moscow, Yakutia), Sweden. Trans-Eurasian temperate.

75. *Dolichopus ringdahli* Stackelberg, 1930

REFERENCES. Stackelberg, 1930b: 160 (**C Yakutia**); Stackelberg, 1933: 88 (**C Yakutia**); Negrobov, Chalaya, 1991: 74 (**C Yakutia**: *Lena-Amga interfluve*).

DISTRIBUTION. Type locality: Russia: "Kreis Jakutsk: Keedej-See; Sud-Ussuri-Gebiet: Tigrovaya. Kreis Sutshan". Palaearctic: Russia (Buryatia, Vladivostok, Yakutia), China (Jilin). East-Siberian-Far-Eastern temperate.

76. *Dolichopus rotundipennis* Loew, 1848

REFERENCES. Negrobov, Chalaya, 1991: 74 (**C Yakutia**: *Lena River valley*); Grichanov, 2002: 123 (**C Yakutia**: *Lena-Amga interfluve*); Grichanov, Bagachanova, 2006: 134 (**C Yakutia**: *Lena-Amga interfluve*).

DISTRIBUTION. Type locality: [Russia:] "Sibirien". Palaearctic: China (Qinghai), Kazakhstan, Mongolia, Russia

(W Siberia, Sayan Mtns., Buryatia, Chita, Yakutia), Tajikistan. Siberian-Mongolian temperate.

77. *Dolichopus rupestris* Haliday, 1833

REFERENCES. Stackelberg, 1933: 90 (**C Yakutia**: *Yakutsk*); Negrobov, Chalaya, 1991: 74 (**C Yakutia**: *Lena-Amga interfluve*; *Lena River valley*); Grichanov, Bagachanova, 2006: 134 (NE and **S Yakutia**).

MATERIAL EXAMINED. **NE Yakutia**: 1♂, Cherskii, River bank, 6.08.1972, Gorodkov (ZIN); 1♂, Verkhoyanskii Ridge, Il'derkei Lake, Orto-Sala river head, 970 m a. s. l., 18.07.1991, Vinokurov (IBPC); 1♂, Verkhoyanskii Ridge, Kele River head, Nimnyr, Kokchin River head, 3.07.1991, Bagachanova (IBPC); 2♀, 15 km NE vil. Khaiysardakh, 18.07.2010, Popova (IBPC); **SW Yakutia**: 1♂, Biryuk River, 18 km from mouth, water post, 16.07.2008, Bagachanova (IBPC); **S Yakutia**: 2♂, Aldan upland, Kurun-Khoonku River mouth, left tributary of Timpton River, 2 km from mouth, 15, 17.08.2010, Nogovitsyna (IBPC); 1♀, Aldan upland, Chulman River mouth, right tributary of Timpton River, 5.08.2010, Bagachanova (IBPC); 3♂, Malyi Nimnyr, 97 km NE vil. Chulman, 2nd point, 10.07.2010, Potapova (IBPC).

DISTRIBUTION. Type locality: England: Downshire, Tullymore Park and Mountains of Mourne. Palaearctic: Austria, Belgium, China (Xinjiang), Czech, Denmark, Finland, France, Germany, Ireland, Italy, Kazakhstan, Latvia, Lithuania, Netherlands, Norway, Poland, Russia (Altai Rep., Arkhangelsk, Bering Is., Buryatia, Kamchatka, Karelia, Khabarovsk, Kuril Is., Leningrad, Murmansk, Nenetsia, Voronezh, Vladivostok, Yakutia, Ural), Sweden, Switzerland, UK; Nearctic: Canada, USA. Holarctic temperate. New for SW Yakutia.

HABITATS. Birch-sedge hummocky tundra, sedge-grass meadow.

78. *Dolichopus sagittarius* Loew, 1848

REFERENCES. Negrobov, Chalaya, 1991: 74 (NE **Yakutia**). Grichanov, 2002: 123 (**C Yakutia**: *Lena-Amga interfluve*); Grichanov, Bagachanova, 2006: 134 (**C Yakutia**: *Lena-Amga interfluve*).

DISTRIBUTION. Type locality: Russia: Siberia. Palaearctic: China, Mongolia, Russia (Altai Rep., Buryatia, Irkutsk, Magadan, Tomsk, Yakutia); Nearctic: Canada, USA. Siberian-Far-Eastern-Nearctic temperate.

79. *Dolichopus selivanovae* Negrobov et Barkalov, 2010*

MATERIAL EXAMINED. **NE Yakutia**: 1♂, Khaiysardakh env., 34 km NE Batagai vil., 3.07.2009, Potapova (ZIN).

DISTRIBUTION. Type locality: Russia: Republic of Altai, Kosh-Agach district, Plateau Ukok, Lake Muzdy-Bulak. Palaearctic: Russia (Altai Rep., Yakutia). Mountains of Altai and Yakutia. New for Yakutia.

80. *Dolichopus sibiricus* Stackelberg, 1929

REFERENCES. Stackelberg, 1929: 169 (**C Yakutia**: *Lena-Amga interfluve*); Negrobov, Chalaya, 1991: 75 (**C Yakutia**: *Amga River valley*; *Lena River valley*).

DISTRIBUTION. Type locality: Russia: "Kreis Jakutsk; Tongutte-Tordo, bei Amga, linker Nebenfluss des Aldan, Keedej-See, 25 km Ostlich von dem rechten Ufer der Lena 2. Zhemkonskij Nasleg, am rechten Ufer der Lena, ungefähr 80 km aufwärts von Jakutsk". Palaearctic: Russia (Yakutia). Conditional endemic, boreal.

81. *Dolichopus simius* Parent, 1927

REFERENCES. Grichanov, Bagachanova, 2006: 135 (**SW Yakutia**).

MATERIAL EXAMINED. **SW Yakutia**: 2♂, Lensky District, vil. Tolon, 14–15.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: Russia: Siberie: environs

d'Irkutsk. Palaearctic: Russia (Altai Rep., Bashkortostan, Blagoveshchensk, Buryatia, Chita, Commander Is., Irkutsk, Kamchatka, Khabarovsk, Khakassia, Krasnoyarsk, Magadan, Moscow, Novosibirsk, Sakhalin, Sverdlovsk, Tomsk, Vladivostok, Yakutia), Mongolia, China (Heilongjiang, Inner Mongolia). East-European-Siberian-Far-Eastern temperate.

Dolichopus simplex Meigen, 1824

REFERENCES. Grichanov, 2014: 211 (**C Yakutia**).

REMARKS. Yakutia was probably in error included in the area of the species by Grichanov [2014] in his species list. Subsequently, this error was repeated in several more lists.

Dolichopus socer Loew, 1871

REFERENCES. Stackelberg, 1933: 97 (**C Yakutia**: Yakutsk); Negrobov, Chalaya, 1991: 75 (**C Yakutia**: Amga River valley, Lena-Amga interfluve, Lena-Vilyui interfluve; **C Yakutia**); Grichanov, Bagachanova, 2006: 135 (**C Yakutia**: Lena River valley; **N NE, S and W Yakutia**).

MATERIAL EXAMINED. **NE Yakutia**: 2♂, Cherskii, River bank, 6.08.1972, Gorodkov (ZIN); 3♂, 3♀, Verkhoyanskii Ridge, Ilderkei Lake, Orto-Sala river head, 970 m a. s. l., 18.07.1991, Vinokurov (IBPC); 1♀, Kolyma River, Ruzhnikovo, 106 km NE Sroednekolymsk, 1.08.2008, A. Popov (IBPC); 1♀, Oimyakoesk, Agayakan River and Suntar River, at bridge, 780 m, 2.07.1994, Vinokurov (IBPC); 1♂, 1♀, El'ginskoe upland, El'ga River left bank, Indigirka River left tributary, floodplain, Malaise trap, 25.07.2008, Nogovitsyna (IBPC); 1♂, Oimyakonskoe upland, Labynkyr Lake, S bank, 4.07.2012, Popov (IBPC); 1♂, 15 km NE vil. Khaiysardakh, 17.07.2010, Popova (IBPC). **NW Yakutia**: 6♂, 3♀, Ebelyakh, Anabar, 23.07.1988, Gorodkov (ZIN); 7♂, Saskylakh airport, 24.07.1988, Gorodkov (ZIN); 2♂, 1♀, Saskylakh, 28.07.1988, Gorodkov (ZIN).

DISTRIBUTION. Type locality: Russia: "Ochotsk". Palaearctic: Kazakhstan, Mongolia, Russia (Altai Rep., Blagoveshchensk, Buryatia, Kamchatka, Khabarovsk, Krasnoyarsk, Magadan, Tomsk, Yamalia, Yakutia). Siberian-Far-Eastern temperate.

HABITATS. Forest-tundra, cereal-moss meadow, light moss forest, swampy pond, swampy bank of former riverbed, bank of lake; cereal grasses, *Chosenia*, *Populus*, *Poa*, *Carex*.

Dolichopus taigensis Smirnov, 1948

REFERENCES. Negrobov, Chalaya, 1991: 75 (**C Yakutia**: Lena-Amga interfluve; Aldan River basin).

DISTRIBUTION. Type locality: Kluch Podnebesnyi, Sikhote-Alin, Primorye. Palaearctic: Russia (Kamchatka, Karelia, Khabarovsk, Magadan, Vladivostok, Yakutia), ?Uzbekistan. East-European-Siberian-Far-Eastern temperate.

Dolichopus terminasianae

Negrobov, Selivanova et Maslova, 2011*

MATERIAL EXAMINED. **NE Yakutia**: 2♂, 1♀, 15 km NE vil. Khaiysardakh, 17–18.07.2010, Potapova (IBPC); 3♂, 15 km NE Khaiysardakh, 17–18.07.2010, L.I. Popova (ZIN).

DISTRIBUTION. Type locality: Magadan obl., Aborigen peak, 100 km N Ust'-Omchug, Annachag ridge, Olen' river. Palaearctic: Russia (Magadan, Yakutia). North-East-Siberian boreal. New for Yakutia.

HABITATS. Hummocky tundra, birch-sedge communities, cereal-moss meadow, light moss forest.

Dolichopus ungulatus (Linnaeus, 1758)*

MATERIAL EXAMINED. **SW Yakutia**: 1♀, Peledui River mouth, Lena River left tributary, 16.07.2010, Burnashova (IBPC).

DISTRIBUTION. Type locality: Europe. Palaearctic: Austria, Belarus, Belgium, Bulgaria, China (Xinjiang), Croatia, Czech Republic, Denmark, Estonia, Finland, France, Georgia, Germany, Hungary, Iran, Ireland, Italy, Kazakhstan, Latvia,

Lithuania, Luxembourg, Netherlands, Norway, Poland, Romania; Russia (Adygea, Alania, Altai Rep., Altai Terr., Chechnya, Irkutsk, Kabardino-Balkaria, Karachai-Cherkessia, Karelia, Khabarovsk, Khantia-Mansia, Krasnodar, Krasnoyarsk, Kursk, Leningrad, Lipetsk, Mordovia, Moscow, Novgorod, Novosibirsk, Orenburg, Perm, Pskov, Ryazan, Tatarstan, Volgograd, Voronezh, Yakutia), Serbia, Slovakia, Spain, Sweden, Switzerland, UK, Ukraine (Kharkiv, Kyiv, Odessa, Ternopil, Carpathia). Trans-Eurasian. New for Yakutia.

Dolichopus uniseta Stackelberg, 1929

REFERENCES. Stackelberg, 1929: 177 (**C Yakutia**: Yakutsk); Stackelberg, 1933: 103 (**C Yakutia**: Yakutsk); Negrobov, Chalaya, 1991: 75 (**C Yakutia**: Amga River valley, Lena-Amga interfluve); Grichanov, Bagachanova, 2006: 135 (**C Yakutia**: Lena River valley).

MATERIAL EXAMINED. **C Yakutia**: 1♂, Kuranakh River mouth, 16 km upstream from Labyia River, 4.07.2001, Potapova (ZIN).

DISTRIBUTION. Type locality: Russia: "Kreis Jakutsk: Olom; Abyj, ungefähr 60°50' nordlicher Breite und 130° Ostlicher Lange zwischen der Lena und Amga, Amginskaja Sloboda, am linken Ufer des Flusses Amga; Sud-Ussuri-Gebiet: Jakovlevka, Kreis Spassk". Palaearctic: Russia (Khabarovsk, Vladivostok, Yakutia), China (Heilongjiang, Hebei, Beijing, Shaanxi); Oriental: China. East-Siberian-Far-Eastern temperate.

HABITATS. Sedge meadow.

Dolichopus vitripennis Meigen, 1824

REFERENCES. Grichanov, 2012: 317 (**NW and C Yakutia**).

MATERIAL EXAMINED. **NW Yakutia**: 1♂, Ebelyakh, Anabar River bank, 22.07.1988, Gorodkov (ZIN); **NE Yakutia**: 1♂, 1 km NE vil. El'gets, tourist base, 17.07.2010, Popova (IBPC); 1♂, Yana-Adycha interfluve between vil. Khaiysardakh and Kisilyakh, 28.07.2009, Potapova (IBPC); **C Yakutia**: 1♂, Yakutsk, 18.07.1969, Sychevskaya (ZIN).

DISTRIBUTION. Type locality: not given. Palaearctic: Austria, Belgium, Czech, Denmark, Estonia, Finland, France, Germany, Hungary, Ireland, Italy, Latvia, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Spain, Sweden, Switzerland, UK, Russia (Karelia, Leningrad, Moscow, Orenburg, Yakutia), North Kazakhstan. Euro-Siberian temperate. New for NE Yakutia.

HABITATS. Moss-shrub forest, willow bed, cereal-sedge meadow.

Dolichopus zetterstedti Stenhammar, 1852

REFERENCES. Stackelberg, 1933: 108 (**C Yakutia**: Yakutsk); Negrobov, Chalaya, 1991: 76 (**C Yakutia**: Amga River valley).

DISTRIBUTION. Type locality: Sweden: Ringstad. Palaearctic: Finland, N Kazakhstan, Norway, Russia (West Siberia, Yamalia, Yakutia), Sweden. Euro-Siberian boreal.

Dolichopus zhelochovzevi Negrobov, 1976

REFERENCES. Negrobov, 1976b: 512 (**C Yakutia**: Yakutsk); Grichanov, Bagachanova, 2006: 130 (**C Yakutia**: Lena-Amga interfluve, Lena River valley).

MATERIAL EXAMINED. **C Yakutia**: 1♂, Yakutsk, 5.07.2000, Bagachanova (ZIN); **W Yakutia**: 2♂, Suntarsky District, vil. Kutanai, 2.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: Russia: near Yakutsk. Palaearctic: Russia (Yakutia). Conditional endemic, boreal. New for W Yakutia.

Hercostomus flavicoxus

Negrobov et Logvinovskij, 1977

REFERENCES. Negrobov, Chalaya, 1991: 75 (**C Yakutia**: Lena River valley).

MATERIAL EXAMINED. **C Yakutia**: 2♂, Amginsky District, Mikhailovka, 24, 25.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: Russia: "2 Zhermanskij nochleg, Yakut ASSR". Palaearctic: Russia (Yakutia). Conditional endemic, boreal.

Hercostomus gracilis (Stannius, 1831)

REFERENCES. Grichanov, 2014: 189 (**Yakutia**).

REMARKS. Yakutia and other territories of Siberia and Russian Far East were in error included in the area of the species by Grichanov [2014] in his species list. Subsequently, this error was repeated in several more lists.

91. *Hercostomus rusticus* (Meigen, 1824)

REFERENCES. Grichanov, Bagachanova, 2006: 135 (**C Yakutia**: *Amga River valley*).

MATERIAL EXAMINED. **C Yakutia**: Lena River valley, 1♂, 1♀, Oktemtsy, 7, 8.07.1977, Kaimuk (IBPC); 2♂, Amginsky District, Mikhailovka, 2.08.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: not given. Palaearctic: Abkhazia, Armenia, Austria, Belarus, Belgium, Bosnia and Herzegovina, Bulgaria, Czech, Estonia, France, Georgia, Germany, Greece, Hungary, Iran, Italy, N Kazakhstan, Macedonia, Mongolia, Netherlands, Poland, Romania, Russia (Adygea, Altai Rep., Blagoveschensk, Buryatia, Chechnya, Crimea, Dagestan, Irkutsk, Kabardino-Balkaria, Karachai-Cherkessia, Krasnodar, Krasnoyarsk, Kursk, Leningrad, Novosibirsk, Omsk, Samara, Ural, Vladivostok, Voronezh, Yakutia), Slovakia, Spain, Switzerland, Ukraine (Poltava). Trans-Eurasian temperate.

92. *Hercostomus sviridovae*

Negrobov et Chalaya, 1987*

MATERIAL EXAMINED. **C Yakutia**: Amga River valley, 2♂, Amginsky District, Mikhailovka, 25.07.1987, Zlobin (ZIN); Lena River valley. 1♂, Yakutsk, Botanical Garden, 20.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: Russia: Primorie, Bikin river. Palaearctic: Russia (Chita, Ulan-Ude, Vladivostok, Yakutia). East-Siberian-Far-Eastern. New for Yakutia.

93. *Hercostomus vivax* (Loew, 1857)

REFERENCES. Negrobov, Chalaya, 1991: 76 (**C Yakutia**: *Lena-Amga interfluve*).

DISTRIBUTION. Type locality: Germany: "Nordliche Deutschland". Palaearctic: Austria, Belarus, Belgium, Bulgaria, Czech, Croatia, Denmark, Estonia, France, Georgia, Germany, Hungary, Italy, Latvia, Poland, Romania, Russia (Altai Rep., Karachai-Cherkessia, Krasnodar, Kursk, Leningrad, Moscow, Ural, Yakutia), Slovakia, Spain, Switzerland, Ukraine (Uzhgorod). Euro-Siberian temperate.

94. *Hydrophorus alpinus* Wahlberg, 1844

REFERENCES. Frey, 1915: 63 (**N Yakutia**); Grichanov, Bagachanova, 2006: 135 (**N Yakutia**).

MATERIAL EXAMINED. **NE Yakutia**: 8♂♀, Sasyklyakh airport, 24.07.1988, Gorodkov (ZIN); 2♂♀, Ebelyakh, Anabar, 23.07.1988, Gorodkov (ZIN); 10♂♀, Cherskii, Kolyma, River bank, 18.08.1972, Gorodkov, Chelnokov (ZIN); 15♂♀, Chai-Tumuss, 125°40', 26.07.1957, Gorodkov (ZIN); 20♂♀, Tiksi, 7 km N r. Kharogor-Yurege, 13.08.1957, Gorodkov (ZIN); 1♀, Kyusyur, River lower reaches, 12 km NE, 21.07.1957, Gorodkov (ZIN).

DISTRIBUTION. Type locality: Sweden: "Walli et Snjerack prope Quickjock". Palaearctic: Finland, Norway, Russia (Arkhangelsk, Chukotka, Leningrad, Murmansk, Nenetsia, Yakutia, Yamalia), Sweden; Nearctic: Canada, USA. Holarctic Arctic-boreal. New for NE Yakutia.

HABITATS. Forest-tundra, swamp meadow, sedge swamp, swamp hollows, bank of rivulets, lakes and ponds, willow bed.

95. *Hydrophorus altivagus* Aldrich, 1911*

MATERIAL EXAMINED. **C Yakutia**: 1♂, Tabaginskii cape, 38 km Pokrovsky road, 11–13.08.2010, Bagachanova (ZIN); 1♂, Tabaginskii cape, 38 km Pokrovsky road, 13.08.2010, Bagachanova (IBPC); 1♂, Env. Yakutsk, Botanical garden, 20.05.2012, Burashova (IBPC); 1♂, Lena-Vilyui interfluve, Ulakhan Chabyda Lake, 30 km N vil. Magarassy, 6.09.2012, Popov (IBPC); **SW Yakutia**: 2♂, Biryuk River, 4 km from Melichan River mouth, 13.07.2008, Bagachanova (IBPC); 1♂, 1♀, vil. Solyanka, env. Olekminsk, 25.07.2008, Bagachanova (IBPC); **NE Yakutia**: 7♂♀, Cherskii, River bank, 18.08.1972, Gorodkov (ZIN).

DISTRIBUTION. Type locality: USA: Colorado, Marshall Pass. Palaearctic: Finland, Norway, Russia (Kamchatka, Karelia, Leningrad, Mordovia, Murmansk, Yakutia), Sweden; Nearctic: Canada, USA. Holarctic temperate. New for Yakutia.

HABITATS. Willow bed, bank of rivulets, branches and puddles, on snow, forb-cereal communities, sedges.

96. *Hydrophorus arcticus* Negrobov, 1977

REFERENCES. Grichanov, Bagachanova, 2006: 136 (**N Yakutia**).

DISTRIBUTION. Type locality: Russia: "Nat.-Kreis Tschuktschen, Kaljutschinskaja guba". Palaearctic: Russia (Chukotka, Komi, Yamalia, Yakutia). Euro-Siberian Arctic.

97. *Hydrophorus balticus* (Meigen, 1824)

REFERENCES. Negrobov et al., 2000a: 85 (**Yakutia**; no material provided).

DISTRIBUTION. Type locality: Germany: Hamburg. Palaearctic: Afghanistan, Algeria, Austria, Azerbaijan, Belgium, Bosnia and Herzegovina, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Georgia, Germany, Greece, Hungary, Iran, Ireland, Israel, Italy, Mongolia, Morocco, Netherlands, Norway, Poland, Romania, Russia (Adygea, Alania, Baikal, Chechnya, Kabardino-Balkaria, Karachai-Cherkessia, Krasnodar, Leningrad, Moscow, Voronezh, Yakutia), Slovakia, Spain, Sweden, Switzerland, Turkey (Antalya, Aydin, Denizli, Isparta, Kars, Mugla, Rize), UK, Ukraine; Afrotropical: South Africa, St. Helena. Multi-regional polyzonal.

REMARKS. A record of the species from Yakutia needs confirmation as it can belong to *H. callostomus* Loew.

98. *Hydrophorus bipunctatus* (Lehmann, 1822)

REFERENCES. Grichanov, Bagachanova, 2006: 136 (**C Yakutia**: *Lena-Amga interfluve, Lena River valley*).

DISTRIBUTION. Type locality: Germany: Hamburg. Palaearctic: Austria, Belgium, Belarus, Bosnia and Herzegovina, Czech, Denmark, Estonia, Finland, France, Germany, Hungary, Ireland, Italy, Kyrgyzstan, Latvia, Netherlands, Norway, Poland, Romania, Russia (Buryatia, Karachai-Cherkessia, Karelia, Kursk, Leningrad, Mordovia, Moscow, Ryazan, S Ural, Voronezh, Yakutia), Sweden, Switzerland, UK. Euro-Siberian-Central-Asian, temperate.

99. *Hydrophorus brunneifacies* Negrobov, 1977*

MATERIAL EXAMINED. **NE Yakutia**: 2♂♀, Cherskii, 18.08.1972, Gorodkov (ZIN).

DISTRIBUTION. Type locality: Kazakhstan: Shortandy, 70 km NW Tselinograd [=Astana]. Palaearctic: Kazakhstan, Russia (Altai Terr. [Makhlakovskoe], Yakutia). New for Yakutia.

HABITATS. Swamp, on water.

Hydrophorus brunnicosus Loew, 1857

REFERENCES. Negrobov, 1977: 368 (**Yakutia**); Negrobov, Chalaya, 1991: 76 (**Yakutia**: 12 versts downstream Zhigalov, 23.IX.1925).

REMARKS. Old records of the species from Yakutia were based on material collected in 1925 in the Zhigalovskii district, now belonging to the Irkutsk Region.

100. *Hydropsorus calostomus* Loew, 1857

REFERENCES. Grichanov, 2002: 124 (**C Yakutia:** Lena-Amga interfluve); Grichanov, Bagachanova, 2006: 136 (**C Yakutia:** Lena-Amga interfluve, Lena River valley).

MATERIAL EXAMINED. **C Yakutia:** 3♂♀, Amginsky District, Mikhailovka, 8.08.1987, Zlobin (ZIN); Lena River valley. 3♂, Botanical Garden, 18.08.2005, Evdokarova (IBPC); 1♀, 35 km N vil. Kapitonovka, 12.07.2007, Ermakova (IBPC); 1♂, 38 km SW Yakutsk, 16.08.2007, Ermakova (IBPC); 1♂, Elanka, 130 km SW Yakutsk, alas Ebe, 25.08.2005, 28.07.1977, Bagachanova (IBPC); 2♂, 3♀, Khatassy, pig farm, 16.07.2006, Bagachanova (IBPC); **SW Yakutia:** 3♂ 2♀, Lena River left bank, 2nd Neryuktyaiinsk, 35 km SW Olekminsk, 23.07.2008, Bagachanova (IBPC); 1♂, Biryuk River, 4 km from Melichan River mouth, 14.07.2008, Bagachanova (IBPC).

DISTRIBUTION. Type locality: Russia: Siberia. Palaearctic: Armenia, Kazakhstan, Russia (Adygea, Buryatia, Dagestan, Krasnodar, Leningrad, Omsk, Ural, Vladivostok, Voronezh, Yakutia, Yaroslavl), Sweden, Tajikistan, Turkey (Erzurum, Kars), Ukraine. Trans-Eurasian temperate. New for SW Yakutia.

HABITATS. Riparian communities, forb-cereal communities, branch at steppe slope, at lake, *Carex*, *Sparganium*, *Stipa*.

101. *Hydropsorus cinipunctus* Negrobov, 1975*

MATERIAL EXAMINED. **W Yakutia:** 1♂, Kempendai River, 75 km E vil. Suntar, 13.08.1988, Blagoderov (ZIN).

DISTRIBUTION. Type locality: Russia: "Umgebung von Petropawlowsk-Kamtschatskij Nogomy". Palaearctic: Mongolia, Russia (Buryatia, Kamchatka, Yakutia). New for Yakutia.

102. *Hydropsorus freyi* Storå, 1954*

MATERIAL EXAMINED. **C Yakutia:** Lena-Vilyuï interfluve, Labyda Lake, 17 km NW vil. Sitte, 21.07.2012, Sivtseva (IBPC).

DISTRIBUTION. Type locality: Finland: Jacobstad. Palaearctic: Finland, Russia (Buryatia, Khabarovsk, Vladivostok, Yakutia), Sweden. Trans-Eurasian temperate. New for Yakutia.

HABITATS. Hummocky tundra, sedge-cereal meadow.

103. *Hydropsorus litoreus* Fallén, 1823

REFERENCES. Negrobov, 1975: 64 (no material provided).

MATERIAL EXAMINED. **C Yakutia:** Lena River valley, 2♀, Oktemtsy, 5.06.1977, Maksimova (IBPC).

DISTRIBUTION. Type locality: Sweden: Balthici Esperod. Palaearctic: Austria, Belarus, Belgium, Czech, Denmark, Estonia, Finland, France, Germany, Hungary, Ireland, Latvia, Netherlands, Poland, Romania, Russia (Kamchatka, Karelia, Leningrad, Lipetsk, Moscow, Murmansk, Pskov, Tyumen, Voronezh, West Siberia, Yakutia), Slovakia, Sweden, UK, Ukraine (Uzhgorod). Trans-Eurasian temperate. First reliable record from Yakutia.

Hydropsorus nebulosus Fallén, 1823

REFERENCES. Grichanov, 2006: 32 (Yakutia).

REMARKS. Yakutia was in error included in the area of the species by Grichanov [2006] in his species list.

104. *Hydropsorus signifer* Coquillett, 1899

REFERENCES. Grichanov, Bagachanova, 2006: 135 (N Yakutia).

MATERIAL EXAMINED. **N Yakutia:** 2♂♀, Sasylyakh airport, 24.07.1988, Gorodkov (ZIN); **NE Yakutia:** 30♂♀, Cherskii, 18.08.1972, Gorodkov (ZIN).

DISTRIBUTION. Type locality: Russia: Bering Is. Palaearctic: Austria, Belgium, Czech, Finland, Latvia, Netherlands, Norway, Sweden, Russia (Chukotka, Karelia, Mur-

mansk, Nenetsia, N Ural, Yakutia); Nearctic: USA, Canada. Holarctic Arctic-boreal. New for NE Yakutia.

HABITATS. Forest-tundra, swamp hollows, bank of lake; on water.

105. *Medetera bargusinica* Negrobov, 1972

REFERENCES. Grichanov, 2002: 124 (**C Yakutia:** Lena-Amga interfluve); Grichanov, Bagachanova, 2006: 137 (**C Yakutia:** Lena-Amga interfluve).

MATERIAL EXAMINED. **C Yakutia:** Lena River valley: 4♂♀, 1♀, Tabaginskii cape, 38 km Pokrovsky road, Malaise trap, 11–13.08.2010, Bagachanova (IBPC); **Lena-Amga interfluve:** 1♂, Churapchinsky ulus, Mendige, 122 km E Yakutsk, 14.07.2004, Bagachanova (ZIN).

DISTRIBUTION. Type locality: Russia: "Burjatiens, Transbaikalien, Jarechta". Palaearctic: Mongolia, Russia (Buryatia, Yakutia). Daurian-Mongolian, steppe inhabitant.

HABITATS. Steppe at slope, cereal-forb meadow, steppe meadow; *Agropyron*, *Pedicularis*.

106. *Medetera bilineata* Frey, 1915

REFERENCES. Negrobov, Chalaya, 1991: 77 (**C Yakutia:** Yakutsk).

DISTRIBUTION. Type locality: Finland: Karislojo, Sammatti, Pyhajarvi, Messuby, Systems, Muonio, Enontteri, Palmen, Kantalaiks. Palaearctic: Czech, Finland, Kazakhstan, Russia (Arkhangelsk, Leningrad, Kursk, Voronezh, Perm, Yakutia). Euro-Siberian temperate.

REMARKS. Bickel [1985] considered this name as synonym of Nearctic and Neotropical *Medetera veles* Loew, 1861, examining the holotypes of the two species. Nevertheless, Negrobov and Naglis [2016] raised *M. bilineata* from synonymy, mentioning the fine difference in setation of male epandrial lobe.

107. *Medetera jakuta* Negrobov, 1972

REFERENCES. Negrobov, Stackelberg, 1974: 310 (**C Yakutia:** Yakutsk); Negrobov, Chalaya, 1991: 77 (**C Yakutia:** Yakutsk).

DISTRIBUTION. Type locality: Russia: Yakutsk. Palaearctic: Russia (Yakutia). Conditional endemic, boreal.

108. *Medetera lamprostomoides* Negrobov, 1972

REFERENCES. Negrobov, Stackelberg, 1974: 313 (**C Yakutia:** Lena River valley; Lena-Amga interfluve); Negrobov, Chalaya, 1991: 77 (**C Yakutia:** Lena River valley).

MATERIAL EXAMINED. **C Yakutia:** 5♂, 5♀, Chochur Muran, 10.07.2007, Bagachanova (IBPC).

DISTRIBUTION. Type locality: Russia: "Dorf Namskoe linkes Ufer des Flusses Lena, 90 km von Jakutsk". Palaearctic: Kazakhstan, Russia (Yakutia), Turkey (Ari, Kars). Central-Asian-Yakutian, steppe inhabitant.

HABITATS. Steppe slope, cereal-forb community.

109. *Medetera micacea* Loew, 1857

REFERENCES. Negrobov, Stackelberg, 1974: 318 (**Yakutia**). Negrobov, Chalaya, 1991: 77 (**C Yakutia:** Lena River valley); Grichanov, Bagachanova, 2006: 137 (**C Yakutia:** Lena-Amga interfluve, Lena River valley).

MATERIAL EXAMINED. **C Yakutia:** Lena River valley: 1♂, 1♀, Yakutsk, 19–20.07.1987, Zlobin (ZIN); 1♂, Vladimirovka, 20 km SW Yakutsk, 28.06.07; 9♂♀, 23 km SW Yakutsk, env. vil. Vladimirovka, 28.06.2007, Bagachanova (IBPC); 5♂♀, 23 km SW Yakutsk, 28.07.2007, 6.08.2007; 1♂, Breeding farm, 7 km SW Yakutsk, 18.06.2008, Bagachanova (IBPC); 2♂, Botanical Garden, Chochur Muran, 10.07.2007, Bagachanova (IBPC); 2♂♀, Botanical Garden, Chochur Muran, 3.07.2008, Ermakova (IBPC); 4♂♀, 25 km N Yakutsk, env. vil. Kildyamtsy, 04.07.2007, Bagachanova (IBPC); 2♂♀, 65 km SW Yakutsk, 25.05.2007; Tabaginskii cape, 36 km SW Yakutsk, Malaise trap, 28–30.07.2009, Bagachanova

(IBPC); 5♂♀, 18 km SW Yakutsk, 28.06.2007, Bagachanova (IBPC); 4♂, 1♀, Tabaginskii cape, Malaise trap, 11–16.07.2010, Bagachanova (IBPC); 1♂, 1♀, same label, 11–13.03.2010; 1♀, Namskii ulus, 1st Khomustakh, 29.06.2012; Nemyuginskii station YaNISKh, 73 km SW Yakutsk, 30.06.20010, Evdokarova (IBPC); *Amga River valley*: 1♂, Mikhailovka, 60 km N Amgi, 13.07.1985, Maksimova (IBPC); 1♀, Kharmaha Khaiata on Amga River near vil. Abaga, 20.07.2009, Bagachanova (IBPC); 2♂, 2♀, Amga River, env. vil. Syrsky, 25 km from vil. Bolugur, 11–13.07.2009, Bagachanova (IBPC); **SW Yakutia**: 1♂, 1♀, Biryuk River, 5 km from mouth, left bank, 18.07.2008; 1♂, Biryuk River, 14 km from mouth, Lena River left tributary, 12.07.2008, Bagachanova (IBPC).

DISTRIBUTION. Type locality: not given [Europe]. Palaearctic: Austria, Belgium, Bosnia and Herzegovina, Bulgaria, China, Croatia, Denmark, Estonia, France, Germany, Greece, Hungary, Iran, Italy, Kazakhstan, Malta, Mongolia, Netherlands, Norway, Poland, Romania, Russia (Adygea, Chechnya, Crimea, Krasnodar, Leningrad, Omsk, Voronezh, Yakutia), Slovakia, Spain, Sweden, UK, Ukraine (Cherkasy), Uzbekistan. Euro-Siberian-Central-Asian temperate. New for SW Yakutia..

HABITATS. Steppe slope, dish, xerophyte meadow, cereal-forb community; *Stipa*, *Koeleria*, *Melilotus*, *Carex*, *Potentilla*, *Thymus*, *Pulsatilla*, *Delphinium*, *Agrostis*.

110. *Medetera truncorum* Meigen, 1824

REFERENCES. Grichanov, Bagachanova, 2006: 137 (**C Yakutia: Lena-Amga interfluve**).

DISTRIBUTION. Type locality: Germany: Hamburg. Palaearctic: Algeria, Austria, Azerbaijan, Belgium, Bosnia and Herzegovina, Czech, Croatia, Denmark, Egypt, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Israel, Luxembourg, Netherlands, Norway, Poland, Portugal incl. Azores, Russia (Krasnodar, Yakutia), Slovakia, Spain, Sweden, Switzerland, Turkey (Adiyaman, Gaziantep, Hatay, Isparta, Mersin, Mualla, Vanurfa), UK, Ukraine (Kharkiv); Nearctic: British Columbia, Wyoming, Oregon. Holarctic polyzonal.

111. *Medetera vagans* Becker, 1917

REFERENCES. Negrobov, 1971: 45 (**C Yakutia: Lena-Amga interfluve**); Negrobov, Chalaya, 1991: 77 (**NE Yakutia**).

DISTRIBUTION. Type locality: Sweden: Lapland; Germany: Berlin. Palaearctic: Czech, Finland, France, Germany, Norway, Russia (Buryatia, Irkutsk, Karelia, Leningrad, Murmansk, Vladivostok, Yakutia), Slovakia, Sweden, Switzerland. Trans-Eurasian temperate.

112. *Medetera veles* Loew, 1861*

MATERIAL EXAMINED. SW Yakutia. 1♂, Lensky District, vil. Tolon, 13.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: USA: Florida. Palaearctic: Russia (Karelia, Khatia-Mansia, Yakutia), Spain; Nearctic: throughout Canada and USA, Bermuda, Mexico). Multiregional polyzonal.

REMARKS. Previous records of the species from Yakutia belong to *Medetera bilineata* Frey (see above), following synonymy proposed by Bickel (1985).

113. *Melanostolus* sp.

MATERIAL EXAMINED. **W Yakutia:** 1♂, env. Tumul, 60 km N vil. Suntar, Kyukei Lake, N 62°43'38", E 117°45'44", 27.06.2011, L. Sivtseva (ZIN).

REMARKS. The male examined belongs most probably to an undescribed species.

114. *Melanostolus nigricilius* (Loew, 1871)

REFERENCES. Grichanov, 2002: 124 (**C Yakutia: Lena-Amga interfluve**); Grichanov, Bagachanova, 2006: 137 (**C Yakutia: Lena-Amga interfluve**).

MATERIAL EXAMINED. **C Yakutia:** 1♂, Lena-Amga interfluve, alas Alagar-Khoi, 18 km N vil. Tyungulyu, 21.07.1991, Bagachanova (ZIN).

DISTRIBUTION. Type locality: Tajikistan. Palaearctic: Bulgaria, China, France, Germany, Hungary, Israel, Mongolia, Romania, Russia (Yakutia), Tajikistan. Euro-Siberian-Central-Asian temperate.

115. *Micromorphus jacutensis* Negrobov, 2000

REFERENCES. Negrobov, 2000: 23 (**?W Yakutia**).

DISTRIBUTION. Type locality: Russia: Yakutia. Palaearctic: Russia (Yakutia). Conditional endemic, boreal.

116. *Peodes yeniseiensis* Grichanov, 2012*

MATERIAL EXAMINED. **NE Yakutia:** 1♂, 1♀, Cherskii, River bank, 6.08.1972, Gorodkov (ZIN).

DISTRIBUTION. Type locality: Russia: Krasnoyarsk Territory, Taymyrskiy Dolgano-Nenetskiy District, Dudinka env., Nikandrovskiy Island. Palaearctic: Russia (Taymyria, Yakutia). East-Siberian, Arctic-boreal. New for Yakutia.

117. *Rhaphium basale* Loew, 1850

REFERENCES. Negrobov, 1976a: 46 (**C Yakutia; W Yakutia**).

MATERIAL EXAMINED. **C Yakutia:** 1♂, 1♀, Yakutsk, 21.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: Poland: "Schlesien". Palaearctic: Austria, Finland, Poland, Russia ("Central European Russia", Saratov, N Ural, Krasnoyarsk, Yakutia), Sweden. Euro-Siberian, boreal-montane.

118. *Rhaphium commune* (Meigen, 1824)

REFERENCES. Negrobov, 1979: 490 (**C Yakutia**).

DISTRIBUTION. Type locality: ?Germany: ?Aachen. Palaearctic: Austria, Belgium, Bosnia and Herzegovina, Czech, Denmark, Estonia, Finland, France, Germany, Hungary, Ireland, Italy, Latvia, Luxembourg, Netherlands, Norway, Poland, Russia (Adygea, Arkhangelsk, Crimea, Kamchatka, Karelia, Khabarovsk, Krasnodar, Krasnoyarsk, Leningrad, Moscow, Murmansk, Pskov, Voronezh, Yakutia), Romania, Slovakia, Spain, Sweden, Switzerland, UK; Nearctic: North America. Holarctic, ?boreal.

119. *Rhaphium crassipes* (Meigen, 1824)*

REFERENCES. Negrobov, 1979: 490 (**Yakutia**); Negrobov, Chalaya, 1991: 77 (**C Yakutia: Lena River valley**).

MATERIAL EXAMINED. **C Yakutia:** 2♂, Middle Lena River, Tabaginskii cape, Malaise trap, 23–25.06.2010, Bagachanova (IBPC); 1♂, Yakutsk, 21.07.1987, Zlobin (ZIN); **W Yakutia:** 2♂, Leninsky [=Nyurbinsky] District, Nyurba, 18, 30.06.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: not given. Palaearctic: Austria, Belgium, Czech, Denmark, Estonia, Finland, France, Germany, Hungary, Ireland, Italy, Latvia, Netherlands, Norway, Poland, Romania, Russia (Adygea, Alania, Arkhangelsk, Baikal, Irkutsk, Kamchatka, Karachai-Cherkessia, Karelia, Krasnodar, Leningrad, Lipetsk, Mordovia, Moscow, Murmansk, Nenetsia, Voronezh, Vladivostok, Yakutia, Yamalia), Slovakia, Sweden, Switzerland, UK; Nearctic: Canada: Yukon Terr., Northwest Terr., British Columbia, Alberta to Quebec; USA: Alaska. Holarctic temperate. New for W Yakutia.

HABITATS. Steppe slope, *Agropyron*.

120. *Rhaphium dichromum* Negrobov, 1976*

MATERIAL EXAMINED. N Yakutia: 1♂, Kyusyur, Lena River lower reaches, 12 km NE, Kyuryu-Myuyus river bank, 63 m, 21.07.1957, Gorodkov (ZIN).

DISTRIBUTION. Type locality: Russia: Buryat ASSR, Barguzin reservation. Palaearctic: Russia (Altai Rep., Buryatia, Magadan). Siberian Arctic-Boreal. New for Yakutia.

121. *Rhaphium discolor* Zetterstedt, 1838*

Porphyrops riparia Parent, 1925 (nec Meigen, 1824; misidentification).

REFERENCES. Stackelberg, 1962: 302 (**Yakutia**; as *Porphyrops riparia* Mg.).

MATERIAL EXAMINED. **C Yakutia**: 1♂, Oktemtsy, 5.06.1977, Bagachanova (IBPC).

DISTRIBUTION. Type locality: Sweden: "Lapponia Umensi; Lycksele; ripa lacus Borgsjoe; Asele; Lapponia meridionalis". Palaearctic: Austria, Belarus, Belgium, Denmark, Estonia, Finland, France, Germany, Ireland, Kirgizia, Latvia, Mongolia, Netherlands, Norway, Poland, Russia (Karelia, Leningrad, Murmansk,), Sweden, UK; Nearctic: USA: Alaska. Multiregional polyzonal. First reliable record from Yakutia.

122. *Rhaphium elegantulum* (Meigen, 1824)

REFERENCES. Negrobov, Chalaya, 1991: 78 (**C Yakutia**: *Lena-Amga interfluve*).

MATERIAL EXAMINED. **C Yakutia**: Lena River valley: 1♂, Tabaginskii cape, 38 èi Pokrovsky road, Malaise trap, 23–25.06.2010; 1♂, same label, 11–13.08.2010, Bagachanova (IBPC).

DISTRIBUTION. Type locality: Germany: Hamburg. Palaearctic: Austria, Belarus, Belgium, Czech Republic, Denmark, Estonia, Finland, France, Germany, Ireland, Latvia, Moldova, Netherlands, Norway, Poland, Romania, Russia (Kamchatka, Karelia, Khantia-Mansia, Krasnoyarsk, Krasnodar, Leningrad, Murmansk, Novosibirsk, Voronezh, Baikal, "Polar Ural", "Igarka"), Spain, Sweden, UK; Nearctic: USA and Canada: Alaska, Oregon, Idaho, Colorado, Quebec to Nova Scotia and New Brunswick, southward to New York and New Hampshire. Multiregional polyzonal.

HABITATS. Slope; forb meadow at water.

123. *Rhaphium fasciatum* Meigen, 1824*

MATERIAL EXAMINED. **SW Yakutia**: 1♂, Lensky District, vil. Tolon, 16.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: not given. Palaearctic: Austria, Belgium, Czech, Denmark, Estonia, Finland, France, Germany, Ireland, Latvia, Netherlands, Norway, Poland, Romania, Russia (Kabardino-Balkaria, Karachai-Cherkessia, Leningrad, Pskov, "Siberia"), Slovakia, Sweden, Switzerland, UK. Euro-Siberian temperate. New for Yakutia.

124. *Rhaphium glaciale* (Ringdahl, 1920)

REFERENCES. Negrobov, 1976a: 46 (**C Yakutia**: *Lena-Amga interfluve*); Negrobov, 1979: 502 (Yakutia).

MATERIAL EXAMINED. **NE Yakutia**: 3♂, Cherskii, River bank, 6.08.1972, Gorodkov (ZIN).

DISTRIBUTION. Type locality: Sweden: Lapland, nr Torneträsk; Jämtland, Wällista. Palaearctic: Finland, Norway, Russia (Murmansk, Baikal, Khantia-Mansia, Krasnoyarsk, Magadan, Yakutia), Sweden; Nearctic: "North America". Holarctic, boreal. New for NE Yakutia.

125. *Rhaphium latimanum* Kahanpää, 2007

REFERENCES. Negrobov, Grichanov, 2010: 121 (**C Yakutia**: *Lena River valley*).

DISTRIBUTION. Type locality: Finland: Kilpisjärvi. Palaearctic: Finland, Russia (Khantia-Mansia, Magadan, Yamalia, Yakutia). Euro-Siberian boreal.

126. *Rhaphium nasutum* Fallén, 1923*

REFERENCES. Grichanov, 2006: 47 (Yakutia; no material provided).

MATERIAL EXAMINED. **C Yakutia**: 2♂, Oktemtsy, island of Lena River, 8.07.1977, Maksimova (IBPC); **SW Yakutia**: 1♂, env. vil. Solyanka, 5 km N Olekminsk, 25.07.2008, Bagachanova

(IBPC); 1♂, 1♀, Tabaginskii cape, 38 km SW Yakutsk, Malaise trap, 28–30.07.2009, Bagachanova (ZIN).

DISTRIBUTION. Type locality: Sweden: "Svecia meridionali". Nearctic: Canada, USA: AK, WA, AB, ON, QC; Palaearctic: Austria, Belarus, Denmark, Finland, Belgium, Czech, France, Germany, Hungary, Kazakhstan, Latvia, Netherlands, Norway, Poland, Romania, Russia (Irkutsk, Karelia, Krasnoyarsk, Leningrad, Moscow, Ryazan, Tyumen, Voronezh), Slovakia, Sweden, UK. Multiregional. First reliable record from Yakutia.

HABITATS. Slope at branch; meadow; sedge.

127. *Rhaphium nudiusculum* Negrobov, 1976

REFERENCES. Negrobov, Chalaya, 1991: 78 (**NE Yakutia**).

DISTRIBUTION. Type locality: Russia: Buryat ASSR, Barguzin reservation. Palaearctic: Russia (Buryatia, Yakutia). East-Siberian boreal.

128. *Rhaphium patellitarse* (Becker, 1900)

REFERENCES. Negrobov, 1979: 502 (**C Yakutia**); Negrobov, Chalaya, 1991: 78 (**C Yakutia**: *Lena River valley*).

DISTRIBUTION. Type locality: Russia: Khantaika [Taimyr]. Palaearctic: Russia (Altai Rep., Buryatia, Taimyr, Yakutia, Yamalia). Siberian boreal.

Rhaphium riparium (Meigen, 1824)

REFERENCES. Stackelberg, 1962: 302 (**Yakutsk**; as *Porphyrops riparia* Mg.).

REMARKS. The record belongs to *Rhaphium discolor* (Meigen, 1824) (see above).

129. *Rhaphium rivale* (Loew, 1869)

REFERENCES. Stackelberg, 1962: 302 (**Yakutsk**; as *Porphyrops rivalis* Lw.); Negrobov, 1979: 502 (**C Yakutia**).

MATERIAL EXAMINED. **W Yakutia**: 1♂, Leninsky [=Nyurbinsky] District, Nyurba, 30.06.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: Germany: "bei Langenau in der Grafschaft Glatz". Palaearctic: Austria, Belgium, Czech, Estonia, Finland, France, Germany, Latvia, Norway, Poland, Romania, Russia (Karelia, Krasnoyarsk, Leningrad, Pskov, Yakutia), Slovakia, Sweden, Switzerland, UK. New for W Yakutia. Euro-Siberian boreal-montane.

130. *Rhaphium umbripenne* (Frey, 1915)

REFERENCES. Negrobov, Chalaya, 1991: 78 (**C Yakutia**: *Lena River valley*).

MATERIAL EXAMINED. **SW Yakutia**: 1♂, Lensky District, vil. Tolon, 16.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: Finland: Tavastehus, Kuopio, Tuovilanlahti, Ilomantsi, Jacobstad, Saraisniemi, Kuusamo, Muonio, Enontekis, Kantalaks, Ponoj, Fl. Vironne; Russia: Kola Peninsula. Nearctic: "North America"; Palaearctic: Finland, Norway, Russia (Kamchatka, Karelia, Khantia-Mansia, Leningrad, Murmansk, Yakutia), Sweden. Holarctic Arctic-boreal. New for SW Yakutia.

131. *Scellus alactaga* Stackelberg, 1951

REFERENCES. Stackelberg, 1951: 598 (**C Yakutia**: *Lena River valley*).

DISTRIBUTION. Type locality: Russia: Yakutia, 2 Neryukteiski nasleg, Padun by river Tunguska, lake Ivan 45 km NE Chita; Mongolia: Transbaikalia, river Tola, env. Ulan-Bator. Palaearctic: Mongolia, Russia (Chita, Yakutia). Daurian-Mongolian, steppe inhabitant.

132. *Scellus gallicanus* Becker, 1909

REFERENCES. Stackelberg, 1951: 603 (**C Yakutia**: *Lena-Amga interfluve*); Negrobov, Chalaya, 1991: 79 (**C Yakutia**: *Lena-*

Amga interfluve; Lena River valley); Grichanov, 2002: 124 (C Yakutia: Lena-Amga interfluve); Grichanov, Bagachanova, 2006: 138 (NE Yakutia; C Yakutia: Lena-Amga interfluve).

MATERIAL EXAMINED. **C Yakutia:** 1♂, 1♀, Yakutsk, Botanical Garden, 20.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: France; Lautaret. Palaearctic: China, France, Mongolia, Russia (Altai Rep., Murmansk, Sayan Mnts., Irkutsk, Yakutia). Euro-Siberian-Central-Asian temperate.

133. *Scellus spinimanus* (Zetterstedt, 1843)

REFERENCES. Stackelberg, 1951: 603 (C Yakutia); Negrobov, Chalaya, 1991: 79 (C Yakutia: Lena River valley; Amga River valley; Lena-Amga interfluve); Grichanov, Bagachanova, 2006: 138 (N Yakutia, NE Yakutia, C Yakutia: Lena River valley).

MATERIAL EXAMINED. **NE Yakutia:** Oimyakon env., summer station Taiga, 12 km from vil. Tomtor, 19.07.1979, Bagachanova (IBPC); 2♂, 2♀, Kolyma River, Pomazkino, 126 km NE Srednekolymsk, 1, 2, 3.08.2006, Popov (IBPC); 2♀, Kolyma River, Lobuia station, 20 km NE Srednekolymsk, Bagachanova (IBPC); 2♂, Cherskii Ridge, Moma River head, 50 km E Pobeda Mnt., env. vil. Sasyr, 28.07.1998, Nogovitsyna (IBPC); 4♂, 3♀, vil. Khaishardakh, 38 km NE Batagai vil., 1.07.2009, Potapova (IBPC); 2♂, 1.5 km from rivulet Khara-Khaya, old Magadan road, N 63°11'57", E 144°01'03", 18.07.2011, Bagachanova (IBPC); **W Yakutia:** 17♂♀, vil. Arylakh SE Mirnyi, 8, 9.07.1987, Zlobin (ZIN); 1♂, Nyurba, 6.08.1989, Bagachanova (IBPC); **C Yakutia:** Amga River valley: 1♀, Amginsky District, Mikhailovka, 5.08.1987, Zlobin (ZIN); Lena River valley: 1♂, Oktemtsy, 20.07.1978, Kaimuk (IBPC); **SW Yakutia:** 1♂, Len-sky District, vil. Tolon, 16.07.1987, Zlobin (ZIN). **NE Yakutia:** 1♀, Cherskii, floodplain Kolyma River, 4.07.1971, Chelnokov (ZIN); **N Yakutia:** 16♂♀, Chekurovka, Lena River lower reaches, 24.07.1957, Gorodkov (ZIN); **NW Yakutia:** 1♂, Saskylakh, 25.07.1988, Gorodkov (ZIN).

DISTRIBUTION. Type locality: Scandinavia. Palaearctic: Austria, Finland, Mongolia, Norway, Sweden, Russia (Crimea, N Ural, Yakutia); Nearctic: Canada, USA: Alaska, Newfoundland, Manitoba, Northwest Terr., Yukon. Holarctic temperate. New for SW and W Yakutia.

HABITATS. Hummocky tundra, slope.

134. *Sciapus vladimiri* Grichanov et Negrobov, 2014

REFERENCES. Grichanov, Negrobov, 2014: 84 (C Yakutia: Yakutsk).

DISTRIBUTION. Type locality: Yakutia, Yakutsk, botanical garden. Palaearctic: Russia (Yakutia). Conditional endemic.

135. *Sympycnus changaicus* Negrobov 1973

Sympycnus urgaicus Negrobov, 1973: 152.

DISTRIBUTION. Type locality: Russia: Borok, Jaroslavl' region. Palaearctic: Finland, France, Germany, Iran, Norway, Russia (Khantia-Mansia, Sayan Mnts., Yakutia, Yaroslavl), Sweden, Turkey (Hakkari). Euro-Siberian-West-Asian temperate. New for SW Yakutia.

HABITATS. Riparian community, sedge community at spruce forest, river bank at slope; hygrophyte community, *Carex*, *Eleohcara*.148. *Thrypticus aff. nigricauda* Wood, 1913MATERIAL EXAMINED. **C Yakutia:** *Lena-Amga interfluve:* 2♂, Tattinsky ulus, Khalaiamny, 183 km E Yakutsk, 11.07.2004, Bagachanova (ZIN).

HABITATS. Riparian community.

REMARKS. The material examined belongs most probably to an undescribed species.

149. *Thrypticus nigricauda* Wood, 1913*MATERIAL EXAMINED. **W Yakutia:** 2♂, Leninsky [=Nyurbinsky] District, Nyurba, 23.06.1987, Zlobin (ZIN); 1♂, 1♀, Suntarsky District, vil. Kutana, 2, 4.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: England: Norfolk. Palaearctic: Austria, Finland, France, Germany, Hungary, Norway, Russia (Leningrad, Voronezh, Yakutia), Sweden. Euro-Siberian temperate. New for Yakutia.

150. *Thrypticus pollinosus* Verrall, 1912*MATERIAL EXAMINED. **C Yakutia:** *Amga River valley:* 1♂, Amginsky District, Mikhailovka, 27.07.1987, Zlobin (ZIN).

DISTRIBUTION. Type locality: England: Aviemore, Devereux Pool in Herefordshire. Palaearctic: China, Finland, France, Germany, Netherlands, Sweden, Russia (Karelia, Leningrad, Ryazan, Voronezh, Yakutia), UK. New for Yakutia.

Discussion

As a result of our study, a new material of Dolichopodidae was collected and identified, and a revised check-list of Yakutian species was compiled. The present research gives new records, including 28 species found for the first time in Yakutia, 31 species recorded from new natural zones and four probably undescribed species. In total, 20 genera and 150 (including four unnamed) species are listed above that apparently makes

up 60–70% of actual Dolichopodidae fauna in Yakutia. This paper provides also characteristics of Yakutian habitats for 54 species.

A preliminary analysis of the Dolichopodidae distribution in Yakutian natural zones has shown that the fauna of the Central Yakutia covered with plain middle-taiga and fragments of relic steppe sites is most fully studied, with 110 species found and about 150 expected species number. Mountain territories of the Southern Yakutia, flat lands of Western and Southwestern parts of the Republic are undercollected, each with 10 to 30 known species and over 100 expected species number. The districts of Northern and Northwestern Yakutia numbers 13 and 10 species respectively. Mountains of the Northeast beyond the Verkhoyansk Range keep extensive sites of relic steppes and should have rich dolichopodid fauna, but only 30 species are revealed there so far.

The boreal element dominates among the Yakutian species of long-legged flies. As to the longitudinal ranges, among the 150 species found, 24 are Holarctic, 27 are Trans-Eurasian, 15 species are conditional endemics of boreal Yakutia. Among the other species, more than 20 ones have the easternmost point of distribution, nearly 20 ones are reported from the Far East and East Siberia, and about the same number of species are distributed in Yakutia and one or more adjacent regions of East and South Siberia. Nevertheless, many regions of the Far East and Siberia are insufficiently studied; therefore, any chorological scheme must be handled with care.

ACKNOWLEDGEMENTS. We are grateful to collectors of the material (IBPC) N.N. Vinokurov, N.K. Potapova, S.N. Nogovitsyna, A.A. Popov, T.G. Evdokarova, Yu.V. Ermakova, L.G. Svitseva, A.P. Burnashova, E.L. Kaimuk, and T.N. Maximova. The authors are sincerely grateful to Drs. E.P. Nartshuk, I.V. Shamshev and L.A. Kuznetsova (ZIN) for their kindness in providing specimens for this study. The work of AKB is partly supported by the IBPC Fundamental Basic Project No AAAA-A17-117020110058-4.
